

Wheat Domestic Fundamentals:

All India weekly average prices decreased by 2.48 percent to Rs. 2023.41 per quintal during the week ended 31st May 2019. Wheat average price were ruling at Rs 2074.82 per quintal during 16-23 May 2019. As compared to prices in the week 24-31 May 2018, the prices are firm by 9.72 percent. Prices are expected to remain steady to slightly in coming days due to hike in import duty and normal demand.

India mainly imports wheat from Australia and Russia. Millers prefer Australian wheat over Russian/Ukrainian wheat due to better quality. As of now, Australian standard wheat (ASW) and Australian premium wheat (APW) is being quoted at \$342.09 (Rs 23751.31) per tonne and \$346.92 (Rs 24086.66) per tonne respectively, after including freight and import duty @40%. Local expenses will further add to cost. Whereas wheat mill quality price in Chennai and Coimbatore is ruling around Rs 23000 per tonne and Rs 23500 per tonne respectively.

The government is set to provide additional food grains under NFSA to ease the stock position. Under NFSA 5 kg of food grains are provided to people living below poverty line at a subsidized rate of Rs 1, Rs 2 and Rs 3 per kg for Coarse grains, rice and wheat respectively. The union cabinet may decide to provide an additional 2kg of food grains to every NFSA beneficiary. This move will result in reduction of carrying cost for various food grains with the government.

Wheat prices closed on higher side today due to improved demand in the domestic market against less supplies today. As the stock purchased by bulk buyers decreases, the market is likely to witness good demand and prices will start moving up.

Government agencies have started procurement. Until 27th May'19 government has procured around 332.16 lakh tonnes of wheat. Of the total quantity procured, around 129.12 lakh tonnes have been procured from Punjab, 93.20 lakh tonnes from Haryana, 29.95 lakh tonnes from Uttar Pradesh, 67.25 lakh tonnes from Madhya Pradesh, 0.01 lakh tonnes from Bihar, 12.04 lakh tonnes from Rajasthan, 0.41 lakh tonnes from Uttarakhand, 0.12 lakh tonnes from Chandigarh, 0.05 lakh tonnes from Gujarat and 0.01 lakh tonnes from Himachal Pradesh. In Rabi marketing season 2019-20 government has set procurement target of 35.70 MMT.

Government has offered 2120600 tonnes of wheat in OMSS until second tender in May'19 out of which 40500 tonnes was sold. No rakes were sold. State government and bulk consumers bought 40000 tonnes and 500 tonnes of wheat respectively. Government will sell wheat in open market at a reserve price of Rs 2080 per quintal in the first quarter i.e. April-June. For second, third and fourth quarter prices will be Rs 2135 per quintal, Rs 2190 per quintal and Rs 2245 per quintal respectively. Reserve price for April-June'19 is higher by Rs 240 per quintal compared to MSP for MY 2019-20. Therefore private millers/traders may try to buy as much quantity as possible to during procurement season to avoid paying a higher price.

As per trade sources, after increase in import duty to 40 percent imports have decreased substantially. India has imported 498.77 MT of Australia prime hard wheat at Tuticorin port in the month of April-19. Imports are expected to be low this year due to good domestic availability and increase in import duty. Prior to this, India has imported around 1000 tonnes in the month of September-2018.

As per trade source, India has exported around 5.57 thousand tonnes in the month of April-2019. The quantity in April-2019 was exported at an average FOB of \$ 388.15 per tonne and the major destinations were Nepal, UAE and Sri Lanka. Exports are likely to be at lower side as other countries are able to provide quality wheat at competitive prices.

International Market Update:

As per latest update, hot and dry weather is likely to continue at Australia's east coast and there is only 30 percent chance of rainfall between June 01 and August 30. Furthermore, there is 70 percent probability that entire Australia will experience warmer than average temperatures. Private analyst are expecting wheat production to be around 18 MMT in 2019-20. Australia has already agreed to import 50000-60000 MT of wheat from Canada in upcoming weeks. In case of third consecutive lower production, Australia may be seen importing more wheat.

Russian wheat prices increased by \$2 per tonne in the past week. The firmness in prices was mainly due to increase in global benchmark such as CBOT. Wheat with 12.5 percent protein was quoted at FoB \$188 per tonne. Russia will start harvesting its winter wheat crop in late June or early July.

Major feed mill group of South Korea has purchased around 120000 tonnes of feed wheat in two consignments of 60000 tonnes each. One consignment was bought at \$207.90/tonne C&F schedule to arrive around September 30th and other at \$208.95/tonne C&F scheduled to arrive around November 30th. Feed wheat can be sourced from Black sea region.

Bangladesh has bought 50000 tonnes of wheat with 12.5 percent protein content from trading house Agrocorp at \$267.98 per tonne. The wheat can be sourced from United States, Canada, Russia or Ukraine. As per FAO Bangladesh's wheat imports for 2018-19 are expected to touch record high of 6 MMT. Demand for wheat in Bangladesh has increased as wheat is being substituted for more expensive rice.

Outlook: Cash market is likely to trade steady to firm in the near term.
