

### Wheat Domestic Fundamentals:

**Government has offered 15252981 tonnes of wheat in OMSS until fourth tender in June'19 out of which 91000 tonnes was sold. No rakes were sold.** State government and bulk consumers bought 90500 tonnes and 500 tonnes of wheat respectively. In the month of June'19, government has sold 35900 tonnes of wheat against offered quantity of 9949900 tonnes. Government sold wheat in open market at a reserve price of Rs 2080 per quintal in the first quarter i.e. April-June. For second, third and fourth quarter prices will be Rs 2135 per quintal, Rs 2190 per quintal and Rs 2245 per quintal respectively. Millers/traders have bought as much quantity as they could during arrival season due to higher reserve price. This is the main reason for lower sale through OMSS.

**India mainly imports from Australia and Russia. Millers prefer Australian wheat over Russian/Ukrainian wheat due to better quality.** As of now, Russian wheat with 12.5 percent protein content and Australian premium wheat (APW) is being quoted at \$333.2 (Rs 23010.79) per tonne and \$385.7 (Rs 26636.44) per tonne respectively, after including freight and import duty @40%. Local expenses will further add to cost. Whereas wheat mill quality price in Chennai and Coimbatore is ruling around Rs 22500 per tonne and Rs 23000 per tonne respectively.

**As per trade sources, after increase in import duty to 40 percent imports have decreased substantially.** India has imported no wheat in the month of May-19. Imports are expected to be low this year due to good domestic availability and increase in import duty. India has imported around 498.77 tonnes in the month of April-2019.

**As per trade source, India has exported around 9.73 thousand tonnes in the month of May-2019.** The quantity in May-2019 was exported at an average FOB of \$ 333.26 per tonne and the major destinations were Nepal, UAE and Somalia. Exports are likely to be at lower side as other countries are able to provide quality wheat at competitive prices.

**As per market sources, government may increase quota for below poverty line and increase sale in open market to liquidate high inventories.** If this is move is finalized, it will not only help in reducing inventory pressure but also provide support to prices. As on 01st June FCI had a stock of 46.56 MMT and 27.58 MMT of wheat and rice respectively.

**Government agencies have started procurement. Until 24<sup>th</sup> June'19 government has procured around 341.15 lakh tonnes of wheat.** Of the total quantity procured, around 129.12 lakh tonnes have been procured from Punjab, 93.20 lakh tonnes from Haryana, 36.87 lakh tonnes from Uttar Pradesh, 67.25 lakh tonnes from Madhya Pradesh, 0.03 lakh tonnes from Bihar, 14.02 lakh tonnes from Rajasthan, 0.42 lakh tonnes from Uttrakhand, 0.13 lakh tonnes from Chandigarh, 0.05 lakh tonnes from Gujarat and 0.01 lakh tonnes from Himachal Pradesh. In Rabi marketing season 2019-20 government has set procurement target of 357.0 LMT.

**Wheat prices are likely to remain steady to slightly firm in coming weeks due to low demand in domestic market.** Due to higher reserve price of Rs 2080 per quintal, millers/traders have bought as much as wheat they could during arrival season. Stock with traders/millers is the main reason for lower off take through open market sales scheme in domestic market. Prices are likely to move up as soon as the stock with traders/millers diminishes.

### International Market Update:

**The Saudi Arabia Grain Organization has purchased 730000 tonnes wheat through tender.** The said quantity will arrive at three different ports. Around 425000 tonnes will arrive at Jeddah port, 250000 tonnes at Dammam and the remaining 55000 tonnes at Jizan port. Saudi Arabia abandoned plans of self-sufficiency in 2008 as farming in desert reduced scarce water resources and became a major importer of hard and soft wheat.

**As per SovEcon, Russia has exported around 34.17 thousand tonnes of wheat during July'18-May'19.** Russia is expected to export around 1.00 thousand tonnes of wheat in the month of June'19. Demand in foreign market is sluggish due to ample availability. Buyers are only considering price. As of now Russian wheat with 12.5 percent protein content at Novorossiysk port is hovering around FoB \$197 per tonne.

**Taiwan flour mills association has bought 83200 tonnes of milling wheat from United States.** Of the total quantity, 20700 tonnes of U.S. dark northern spring wheat of 14.5 percent protein content was bought at FOB \$234.13 per tonne from CHS, 12850 tonnes of hard red winter wheat of 12.5 percent protein content was bought at FoB \$236.31 per tonne from United grain corp and 5875 tonnes of soft white wheat with 9 percent protein was bought at FoB \$225.19 per tonne from CHS.

**SovEcon has cut Russia's wheat production forecast for 2019 to 82.2 MMT** compared to previous forecast of 82.6 MMT. Production forecast has been reduced due to low soil moisture in several regions in Russia.

**As per latest update, ABARES has reduced wheat production forecast for Australia by 11% to 21.2 MMT from its previous forecast of 23.9 MMT.** The forecast is lower by 14% compared to 10-year average of 24.7 MMT. Australia has already agreed to import 50000-60000 MT of wheat from Canada in upcoming weeks. In case of third consecutive lower production, Australia may be seen importing more wheat.

**Outlook:** Cash market is likely to trade steady to firm in the near term.
