

Wheat Domestic Fundamentals:

As per latest update, wheat prices remained steady to weak due to poor demand from flour millers and stockiest. Demand was limited due to high spot prices in domestic market. Government off take is likely to increase in upcoming weeks as stock with private trade has declined. Government has already applied import duty on wheat to curb imports and provide support to domestic prices. Therefore, government has abundant supplies this year to tackle any unexpected rise in wheat prices by selling more quantity in open market.

India mainly imports from Australia and Russia. Millers prefer Australian wheat over Russian/Ukrainian wheat due to better quality. As of now, Russian wheat with 12.5 percent protein content and Australian premium wheat (APW) is being quoted at \$343.00 (Rs 24764.60) per tonne and \$445.34 (Rs 32153.55) per tonne respectively, after including freight and import duty @40%. Local expenses will further add to cost. Whereas wheat mill quality price in Chennai is ruling around Rs 24000 per tonne. Therefore, as of now, there is no parity for wheat imports.

All India weekly average prices increased by 1.53 percent to Rs. 2175.77 per quintal during the week ended 23rd August 2019. Wheat average price were ruling at Rs 2143.07 per quintal during 09-15 August 2019. As compared to prices in the week 16-23 August 2018, the prices are firm by 7.16 percent. Prices are expected to remain steady to firm in coming days due to hike in import duty and good demand in domestic market.

As per market sources, Madhya Pradesh government is likely to reduce mandi tax by 0.5 percent to 1 percent. Generally mandi tax is paid by traders to APMC. The state government believes that traders will pass on this benefit to farmers thereby increasing their income. Madhya Pradesh is one the leading grower of wheat in the country.

As per trade source, India has exported around 23.57 thousand tonnes in the month of July-2019. The quantity in July-2019 was exported at an average FOB of \$ 363.97 per tonne and the major destinations were Nepal, UAE, Sri Lanka and Bahrain. Exports are likely to be at lower side as other countries are able to provide quality wheat at competitive prices.

As per fourth advance estimate, India is likely to produce 102.19 MMT of wheat compared to 99.70 MMT in previous year. The total food grain production is expected at record 284.95 MMT compared to 285.01 MMT last year. Wheat prices are expected to remain steady to firm due to good demand in domestic market and no imports. Furthermore government has ample stock available to control any unexpected price surge.

As per trade sources, after increase in import duty to 40 percent imports have decreased substantially. India has imported no wheat in the month of July-19. Imports are expected to be low this year due to good domestic availability and increase in import duty. India has imported around 498.77 tonnes in the month of April-2019.

Wheat WPI has increased from 150.8 in June-2019 to 153.4 in July-2019. Monthly wheat inflation has increased by 1.72 percent in July-2019 compared to previous month. As compared to July-2018 wheat WPI has increased by around 5.87 percent. Wheat WPI is expected to stay steady to firm in coming month

Government has sold 241550 tonnes of wheat in OMSS until first tender in August'19. No rakes were sold. State government and bulk consumers bought 228050 tonnes and 13500 tonnes of wheat respectively. Millers/traders have bought as much quantity as they could during arrival season due to higher reserve price. This was the main reason for lower sale through OMSS. Stock with millers/traders has diminished and sales through OMSS is likely to witness an increasing trend in upcoming weeks.

International Market Update:

As on 23rd August Russia has harvested 57.00 million tonnes of wheat compared to 55.00 million tonnes a year ago for the same date. Around 16.60 million hectares of area has been harvested with an average yield of 3.44 tonnes per hectare compared to 16.40 million hectares with an average yield of 3.36 tonnes per hectare a year ago for same date. Russian wheat with 11.5% protein content is being quoted at FoB \$ 188.00 per tonne.

As per latest update, SAGO has decided to buy 10 percent of its annual wheat requirement from Saudi-controlled companies based abroad. Such companies should produce 5000 tonnes of wheat and Saudi investors must own 51 percent stake. Furthermore, these companies must be registered at the kingdom's ministry of environment, water and agriculture

As per latest update, South Korean flour mill has bought 30000 tonnes of wheat of U.S. origin. The said quantity is expected to arrive in South Korea between 20th Nov- 20th Dec. The millers paid FoB \$212.96 per tonne for soft wheat with 10.5 percent protein content, FoB \$201.56 per tonne for hard wheat with 11.5 percent protein content and FoB \$217.93 per tonne for spring wheat with 14 percent protein content.

Farm ministry has increased soft wheat production in France to 38.2 MMT up by 12 percent compared to last year. Forecast has been increased as analysts believe that heat wave in June and July had little impact on yields.

Outlook: Cash market is likely to trade steady to firm in the near term.
