

Wheat Domestic Fundamentals:

Government has sold 336700 tonnes of wheat in OMSS until fourth tender in August'19. No rakes were sold. State government and bulk consumers bought 245850 tonnes and 90580 tonnes of wheat respectively. In the month of August'19 government has sold 152000 tonnes against offered quantity of 7819470 tonnes. Millers/traders have bought as much quantity as they could during arrival season due to higher reserve price. This was the main reason for lower sale through OMSS. Stock with millers/traders has diminished and sales through OMSS is likely to witness an increasing trend in upcoming weeks.

As per latest update, wheat prices remained steady to weak due to poor demand from flour millers and stockiest. Demand was limited due to high spot prices in domestic market. Government off take is likely to increase in upcoming weeks as stock with private trade has declined. Government has already applied import duty on wheat to curb imports and provide support to domestic prices. Therefore, government has abundant supplies this year to tackle any unexpected rise in wheat prices by selling more quantity in open market.

India mainly imports from Australia and Russia. Millers prefer Australian wheat over Russian/Ukrainian wheat due to better quality. As of now, Russian wheat with 12.5 percent protein content and Australian premium wheat (APW) is being quoted at \$343.00 (Rs 24764.60) per tonne and \$445.34 (Rs 32153.55) per tonne respectively, after including freight and import duty @40%. Local expenses will further add to cost. Whereas wheat mill quality price in Chennai is ruling around Rs 24000 per tonne. Therefore, as of now, there is no parity for wheat imports.

All India weekly average prices increased by 1.53 percent to Rs. 2175.77 per quintal during the week ended 23rd August 2019. Wheat average price were ruling at Rs 2143.07 per quintal during 09-15 August 2019. As compared to prices in the week 16-23 August 2018, the prices are firm by 7.16 percent. Prices are expected to remain steady to firm in coming days due to hike in import duty and good demand in domestic market.

As per market sources, Madhya Pradesh government is likely to reduce mandi tax by 0.5 percent to 1 percent. Generally mandi tax is paid by traders to APMC. The state government believes that traders will pass on this benefit to farmers thereby increasing their income. Madhya Pradesh is one the leading grower of wheat in the country.

As per trade source, India has exported around 23.57 thousand tonnes in the month of July-2019. The quantity in July-2019 was exported at an average FOB of \$ 363.97 per tonne and the major destinations were Nepal, UAE, Sri Lanka and Bahrain. Exports are likely to be at lower side as other countries are able to provide quality wheat at competitive prices.

As per fourth advance estimate, India is likely to produce 102.19 MMT of wheat compared to 99.70 MMT in previous year. The total food grain production is expected at record 284.95 MMT compared to 285.01 MMT last year. Wheat prices are expected to remain steady to firm due to good demand in domestic market and no imports. Furthermore government has ample stock available to control any unexpected price surge.

As per trade sources, after increase in import duty to 40 percent imports have decreased substantially. India has imported no wheat in the month of July-19. Imports are expected to be low this year due to good domestic availability and increase in import duty. India has imported around 498.77 tonnes in the month of April-2019.

Wheat WPI has increased from 150.8 in June-2019 to 153.4 in July-2019. Monthly wheat inflation has increased by 1.72 percent in July-2019 compared to previous month. As compared to July-2018 wheat WPI has increased by around 5.87 percent. Wheat WPI is expected to stay steady to firm in coming month

International Market Update:

As per latest update, Ukraine wheat production is likely to increase by 13 percent in 2019 to 27.8 MMT compared to 24.6 MMT last year. Higher global production is keeping wheat prices under pressure. As of now Ukraine wheat with 11.5 percent protein content is hovering around FoB \$ 183.50 per tonne.

Jordan has bought 60000 tonnes of hard milling wheat at \$227.75 per tonne cost and freight for delivery in first half of November. The tender closed on Tuesday and wheat can be sourced from optional origin. The seller was trading house Nibulon. Other participants in the tender with their offers were Ameropa (\$229 a tonne CnF), Cerealcom Dolj (\$230 a tonne CnF) and Glencore (\$231 a tonne CnF).

GASC (General Authority for Supply Commodities) has purchased 350000 tonnes of Russia, Ukraine and France wheat through tender. Of the total quantity 60000 tonnes was of French origin, 60000 tonnes was of Ukrainian origin and 230000 tonnes was of Russian origin. Egypt is the largest importer of wheat and imports around 11-12 MMT of wheat every year.

As on 23rd August Russia has harvested 57.00 million tonnes of wheat compared to 55.00 million tonnes a year ago for the same date. Around 16.60 million hectares of area has been harvested with an average yield of 3.44 tonnes per hectare compared to 16.40 million hectares with an average yield of 3.36 tonnes per hectare a year ago for same date. Russian wheat with 11.5% protein content is being quoted at FoB \$ 188.00 per tonne.

Outlook: Cash market is likely to trade steady to firm in the near term.
