

Wheat Domestic Fundamentals:

Wheat MSP for rabi marketing season 2020-21 has been increased by Rs 85 per quintal to Rs 1925 per quintal. The government further said that the increase in MSP is at least 1.5 times of all India weighted average cost of production. This move will motivate farmers to increase sowing of wheat.

As per trade source, India has exported around 10.64 thousand tonnes in the month of September-2019. The quantity in September-2019 was exported at an average FOB of \$ 373.12 per tonne and the major destinations were Nepal, Jordan, UAE and Somalia. Exports are likely to be at lower side as other countries are able to provide quality wheat at competitive prices.

As per market sources, wheat stock in central pool as on 1st October'19 stood at 393.16 lakh tonnes down by 5.24% compared to last month. This quantity is higher by around 10.36% compared to last year for the same month. Government has already applied import duty on wheat to curb imports and provide support to domestic prices. Therefore, government has abundant supplies this year to tackle any unexpected rise in wheat prices by selling more quantity in open market.

As per trade sources, India has imported 588.41 tonnes of Australian wheat during the month of September'19. The wheat has been imported in two lots. The first lot is for 484.74 MT at \$507.50 per tonne and the second lot is for 103.67 MT at \$406.49 per tonne. Both the prices are inclusive of import duty @ 40%. It can be seen that there is no import parity as mill quality and lokwan wheat in south India are being offered around Rs 2400 per quintal and Rs 2600 per quintal respectively. Therefore, the imported wheat is solely for the purpose of mixing to improve the overall quality of wheat.

Wheat WPI has increased from 156.5 in August -2019 to 158.3 in September-2019. Monthly wheat inflation has increased by 1.15 percent in September-2019 compared to previous month. As compared to September -2018 wheat WPI has increased by around 5.67 percent. Wheat WPI is expected to stay steady to firm in coming month.

All India weekly average prices increased by 0.42 percent to Rs. 2135.90 per quintal during the week ended 14th October 2019. Wheat average price were ruling at Rs 2127.05 per quintal during 01-08 October 2019. As compared to prices in the week 09-15 October 2018, the prices are firm by 5.99 percent. Prices are expected to remain steady to firm in coming days due to no import parity and likely increase in demand in domestic market.

Farmers in Punjab's flood affected area are likely to get free wheat seed. The state government will provide high quality wheat seeds to farmers in flood hit districts such as Moga, Jalandhar, Kapurthala, Fazilka, etc. The flood affected 30000 hectares of land therefore, around 30000 quintal of seed will be provided. Although flood adversely affected the crop, it has increased soil moisture for upcoming rabi crops.

Supply side for FAQ is likely to be good as ample stock is available in domestic market due to three consecutive good production years. Government has procured 34.1 MMT in MY 2019-20 lower by 1.6 MMT compared to MY 2018-19. Demand from south Indian millers is good after application of 40% import duty. No import parity has also increased demand for domestic wheat.

Monsoon rainfall in India was above average by 10% in 2019. Furthermore, extra rains in June-September will also help in providing adequate soil moisture for winter crops, thereby boosting yields. Under normal conditions another good harvest of wheat may be on the cards in upcoming Rabi season.

International Market Update:

The Saudi Arabia Grain Organization has purchased 605000 tonnes wheat through tender. The wheat was bought at an average price of C&F \$242.51 per tonne. The said quantity will arrive at three different ports. Around 370000 tonnes will arrive at Jeddah port, 180000 tonnes at Dammam and the remaining 55000 tonnes at Jizan port. The wheat is expected to arrive in Saudi Arabia during February-March 2020. The seller has the option of selecting origin.

As per the National Australia Bank, wheat output is likely to be around 15.5 MMT well below the market expectation of 19.0 MMT due to third consecutive year of drought. "It is mainly due to heat, dry weather and frost," said Phin Ziebell, agribusiness economist at NAB.

GASC has purchased 405000 tonnes of Ukrainian, French and Russian wheat through tender. Of the total quantity 60000 tonnes has been sourced from Ukraine, 60000 tonnes has been sourced from France and 285000 tonnes has been sourced from Russia. Cargill offered 55000 tonnes of Russian wheat at FoB \$212.50 per tonne, Hakan offered 60000 tonnes of Ukrainian wheat at FoB \$210.90 per tonne, Garant Logistics offered 60000 tonnes of Russian wheat at FoB \$214.95 per tonne, Hakan offered 55000 tonnes of Russian wheat at FoB \$213.85 per tonne, Glencore offered 60000 tonnes of French wheat at FoB \$210.61 per tonne, Grain export offered 60000 tonnes of Russian wheat at FoB \$215.42 per tonne and Posco offered 55000 tonnes of Russian wheat at FoB \$214.25 per tonne.

As per latest update, Japan's ministry of agriculture bought 114012 MT of food quality wheat from United States and Canada. Around 60052 MT has been bought from United States and 53960 tonnes from Canada. Japan is the world's sixth largest importer in the world. The quantity is expected to be loaded between 21st November-20th December.

Outlook: Cash market is likely to trade steady to firm in the near term.
