

Wheat Domestic Fundamentals:

As per latest update, area sown until 24th January-20 is 334.35 lakh hectares compared to 299.08 lakh hectare in the previous Rabi season. The normal area is 305.58 lakh hectares. Acreage under wheat has increased in the states of Madhya Pradesh, Gujarat, Maharashtra and Rajasthan till date.

The Agriculture and Farmers' Welfare Department has issued an advisory for the wheat farmers in Jalandhar against Yellow Rust disease in the crop and also asked farmers to avoid unnecessary use of the urea. The yellow rust is a disease that causes loss in crop yield and the disease appears as yellow coloured, powdery linear stripes on the leaves.

As per market sources, wheat stock in central pool as on 1st January'20 stood at 327.96 lakh tonnes down by 6.76% compared to last month. This quantity is higher by around 20.92% compared to last year for the same month. Government has already applied import duty on wheat to curb imports and provide support to domestic prices. Therefore, government has abundant supplies this year to tackle any unexpected rise in wheat prices by selling more quantity in open market.

The reserve price of wheat under OMSS has been reduced to Rs 2,135/quintal for fair average quality (FAQ) and to Rs 2,080/quintal for lower quality. The benchmark price was Rs 2,245/quintal for the January-March period of 2019-20. When the OMSS scheme was announced in April last year, the government had fixed reserve price of wheat for each quarter during FY20. The objective was to liquidate more wheat with minimum losses. Reduction has been made to make space for the procurement of the new crop. According to trade sources, about 1.7 MT of wheat has been sold under OMSS, however official data showed it was less than a million tonne until November 28, 2019.

All India weekly average prices declined by 1.50 percent to Rs. 2344.75 per quintal during the week ended 18th January 2020. Wheat average price were ruling at Rs 2380.46 per quintal during 09-16 January 2020. As compared to prices in the week 16-23 January 2019, the prices are higher by 11.11 percent. Prices are expected to notice steady to weak tone in coming days amid expectation of bumper crop this season.

Wheat WPI has increased from 164.4 in November -2019 to 165.7 in December -2019. Monthly wheat inflation has increased by 0.79 percent in December -2019 compared to previous month.

India has raised MSP by Rs 85 per quintal to Rs 1925 per quintal for MY 2020-21. The hike in MSP is lowest in last three years. Even though this increase is lower it has still widened the gap between domestic and international prices. India wheat FoB at Kandla is ruling around \$312 per tonne compared to \$203.5 per tonne for Russian wheat with 11.5 percent protein content.

As per trade source, India has exported around 18.31 thousand tonnes in the month of December-2019. The quantity in December-2019 was exported at an average FOB of \$ 286.37 per tonne and the major destinations were Bangladesh, Nepal, Somalia, UAE and Sri Lanka. Exports are likely to be at lower side as other countries are able to provide quality wheat at competitive prices.

International Market Update:

China has bought about 1MMT of Australian, Canadian and French wheat as Beijing looks to fill import quotas set by the World Trade Organization, according to trade sources. The purchases are part of the 9.6 million-ton annual wheat quota China allocates to buyers.

Serbia will import around 30,000 tonnes of high-quality wheat by the end of April, as this year's wheat yield does not meet the high standards of domestic millers and confectioners.

Sindh has asked the federal government to stop wheat exports in view of the prevailing shortages that have led to a spike in the price of the commodity and their products. The country's wheat flour crisis has worsened in a last few weeks, affecting major cities such as Karachi, Hyderabad, and Lahore and with prices increasing up to Rs70/kilogramme in some areas.

Pakistan Government has approved the import of 300,000 tonnes of wheat to relieve a shortage of flour supplies that has created a crisis in the market. Prices of flour and bread shot up last week as the ingredient disappeared from shops and wholesale markets, while bread makers shut in protest towards selling the staple at controlled prices.

Tunisia's state grains agency has issued an international tender to purchase around 117,000 tonnes of durum wheat and 100,000 tonnes of soft wheat according to European traders. The tender closed on Friday. The durum wheat was sought in four 25,000 tonnes consignments and one of 17,000 tonnes. The soft wheat was sought in four consignments of 25,000 tonnes. Durum shipment was sought between Feb. 15 and May 5 and Soft wheat shipment was sought between Feb. 10 and March 25 also depending on origin.

The area sown with soft wheat for this year's harvest in France is estimated to have declined by 10% compared with 2019 to a 19-year low after heavy rain disrupted field work. Acreage is estimated at 4.47 million hectares compared to 4.97 hectares previous year.
