

### Wheat Domestic Fundamentals:

**According to traders, Wheat prices rose in Jaipur due to firm demand and a fall in arrivals.** In Jaipur, arrivals were pegged at 1,000 bags (1 bag = 100 kg), compared with 1,200 bags on Wednesday. In Indore, wheat prices were unchanged as demand and supply of the food grain were steady. Arrivals were pegged at 3,000 bags at the market.

**All India weekly average prices decreased by 11.22 percent YoY to Rs. 1887.44 per quintal during the week ended 07<sup>th</sup> Sep 2020.** Wheat average prices were ruling at Rs 2125.92 per quintal during 1<sup>st</sup> Sep-7<sup>th</sup> Sep 2019. As compared to prices in the last week 24<sup>th</sup>-31<sup>st</sup> Aug 2020, the prices are firm by 1.60 percent. Prices may go down despite festive season as supply is expected to increase from the central pool at discounted prices. However, free distribution of wheat till Nov would prevent the market from rising significantly.

**According to a parliamentary standing committee report presented** on Wednesday to Rajya Sabha, India exports only one per cent of its agri products, India exports only 0.2 per cent of its wheat. Committee called for upgrading agri infrastructure, improving efficiency levels in the supply chain and putting emphasis on value addition.

**Government has sold 171620 tonnes of wheat in OMSS through E-Auctions in the Fourth week of August'20.** No rakes were sold. State government and bulk consumers bought 105280 tonnes and 66340 tonnes of wheat respectively.

**Wheat purchase was reduced by wheat flour mills in Madhya Pradesh due to which business remained sluggish.** During the current week, the prices of wheat in Madhya Pradesh declined by Rs 25/50. With this downward trend, Indore remained at 1600/2300 rupees, Dewas 1500/2150 rupees, Ujjain 1550/2100 rupees per quintal at the weekend. Currently demand is expected to increase.

**The government may continue to levy freight charges on sale of wheat** under its open market sale scheme, since it is hopeful of pushing out excess stocks after the recent reduction in the base price of wheat.

**Indian FoB quote is hovering around \$236.03 per tonne while Russia, Ukraine, France, US and Australia are offering wheat at \$199.29, \$200.50, Euro 185.88, \$229.90 and \$229.28 per tonne respectively.** There is little hope for recovery on the export front this year. However, India is expected to import around up to 4 thousand tonnes in MY 2019-20.

### International Market Update:

**According to the Buenos Aires Grains Exchange, Argentine wheat was refreshed** by rains on the Pampas grains belt last week but remained in need of more moisture if yields are to recover from a months-long dry spell.

**The 2020 U.S. HRW and SRW harvests are officially complete and preparations for the 2021 crop have now begun.** The PNW SW harvest made strong progress this week on favorable field conditions. Farmers in Washington have harvested 88% of the expected SW crop. Idaho's SW crop is 94% harvested and Oregon's SW harvest is now complete.

**According to Agritel, a European agriculture consultancy, French soft (non-durum) wheat production is expected to fall 25% on the year to 29.5 MMT following an overly wet fall in 2019 and an extremely dry growing season throughout 2020.** The consultancy believes the drop in production could result in a 40% decrease in French soft wheat exports in marketing year 2020/21.

**According to Ukrainian grain traders union UGA said the country's 2020 wheat crop output at 26.6 million tonnes.** Ukraine is likely to export 17.5 million tonnes of wheat, in the 2020/21 season.

**According to USDA's August Crop Production report, total 2020 Montana HRW production may go down 21% to 2.05 MMT on significantly reduced planted area.** However, HRW conditions remained strong and the state could see a record average yield per acre, weather permitting.

**Russian farmers have harvested 67.4 MMT of wheat as of Aug, 18% ahead** of this time last year. According to the country's Ministry of Agriculture, the total average yield is up slightly this year at 53.3 bu/acre (3.58 MT/ha).

**Russian wheat export prices steadied last week after a three-week long fall that had been triggered** by pressure from the promising new crop, Russian wheat with 12.5% protein loading from Black Sea ports was at \$202 a tonne free on board (FOB) at the end of last week, up \$1 from the week before, agriculture consultancy IKAR said in a note.

**Bulgaria harvested 4.53 million tonnes of wheat out of 97.6% of sown area, 20% less** when compared with the same period a year ago due to extensive drought, operational data on grain crops from the agriculture ministry showed
