

Wheat Domestic Fundamentals:

In Indore, Madhya Pradesh, mill-quality Wheat prices rose, despite weak demand from bulk buyers such as stockists and restaurants, because of a fall in supply, traders said. Arrivals were pegged at 4,000 bags (1 bag = 100 kg), down from 6,000 bags on Saturday. In Jaipur, Rajasthan, prices rose because of low supply, traders said. Arrivals were pegged at 1,000 bags against 1,200 bags on Saturday. Due to High export, the Wheat market is bullish as retail demand increases in physical markets as the government's PMGKAY scheme for free food of public distribution system ended in November 30, which is unlikely to continue further.

Indian traders have signed two deals to export around 200,000 tonnes of wheat to Bangladesh. According to market sources, The traders are exporting wheat at \$210-\$220 per tonnes, FOB, and \$250-\$260 per tonnes, free on board, under the two deals in the coming few weeks. The export price of Indian wheat has been falling as domestic prices have weakened over the past few months.

On Friday, the government said the progress of rabi (winter) crop sowing had been "satisfactory" so far, notwithstanding the COVID-19 challenges as total acreage increased by 4.02 percent to Rs 348.24 lakh hectare from 334.78 lakh hectare in the year-ago period. The area sown to wheat, the main winter crop, has increased marginally to 151.58 lakh hectare till November 27 of the rabi season in 2020-21 crop year (July-June), as against 150.49 lakh hectare a year ago.

Over 46 lakh hectares of wheat sowing have been complete in Madhya Pradesh after favorable conditions for the state's rabi crops. This year, the target for sowing rabi crops has been increasing by about 2 lakh hectares. The agriculture minister said sowing of wheat was completed in 46.74 lakh hectares area till November 23, almost 10 lakh hectare more than last year when the farmers could complete wheat sowing only in 37.27 lakh hectares of land.

The Wheat market saw a deep impact of the rumor, according to which the Central Government has extended the period of free grain distribution till March 2021 under the Public Distribution System (PDFS), which leads price down on Wednesday. Similarly, the scheme is coming to an end in November 2020 and still, there's no official confirmation from the government so far.

According to traders, Wheat prices rose in Indore as supply declined. Arrivals will gradually dry up as most stockists have already offloaded in bulk before Diwali, said traders. Arrivals of wheat were pegged at 5,000 bags (1 bag = 100 kg), as against 6,000 bags the previous day. Prices of the food grain also rose in Jaipur because of lower arrivals, traders said. Arrivals were estimated at 2,000 bags, down from 3,000 bags on Saturday.

According to Government, Wheat stored in the Punjab and Haryana needs to shift out to make space for rice. These two states particularly have huge wheat stocks, and all of them cannot be moved out to the existing CAP (covered and plinth). So we are planning to ask some states to create more storage space, "It has become necessary for the Centre to move the Wheat as FCI has a high surplus of Wheat in the central pool. As of Oct 1, the government's Wheat stocks were at 43.70 MMT.

As per latest update, area sown until 13th November-20 is 50.01 lakh hectares compared to 39.55 lakh hectare in the same period of previous year Rabi season. Which is higher by 16.5%. The normal area is 303.28 lakh hectares.

As per trade source, India has Import around 6380 MT in the month of October-2020 after March-2020. The quantity in October-2020 was imported at an average FOB of \$ 304.90 per tonnes.

International Market Update:

Ukraine has exported 21.08 million tonnes of grain so far in the season, which runs from July 2020 to June 2021, the economy ministry said on Friday. That is 11.3% lower than exports for the same period of the previous season because of lower corn and wheat sales amid a weaker harvest. Exports of wheat have declined to 11.83 million tonnes from 13.15 million tonnes.

Brazil has extended a tariff-free quota for wheat imported from outside the Mercosur trade bloc for another year, leaving the door open to other grain exporters as forecasts for this year's crop in neighboring Argentina continue to be revised lower.

Zimbabwe expects to harvest 190 000 MT of wheat, the highest in the ten years, as the Govt. seeks to reduce its import bill. However, they would still import wheat as the local crop cannot make quality bread due to the conditions in which the cereal is grown and is suitable only for making biscuits.
