

Wheat Domestic Fundamentals:

According to Madhya Pradesh's Chief Minister, some crucial crops of the state should get GI tag. The crops include Sharbati wheat. He made these above statements at a review meeting of various departments on Monday. CM directed the agriculture department to educate the farmers to know what crops should be sown. For this, each agriculture science center should show a list before Rabi, and Kharif crops are sown.

All India's weekly average prices increased by 1.57 percent to Rs. 1846.26 per quintal during the week ended 23rd Dec 2020. Wheat average prices were ruling at Rs 2197.57 per quintal during 16th – 23rd Dec 2019. The wheat prices are unlikely to drop much further and going to be stable in coming weeks due to ample availability and slowed demand from flour mills. There's a discussion in the market that the PMGKAY scheme will get restart again. The new wheat from Saurashtra region (Gujrat) will be coming to the mandis at the end of next month.

As per the latest update, the area sown to wheat has increased marginally by 5.22% to 294.01 lakh hectares so far in the ongoing 2020-21 rabi season from 278.65 lakh hectares in the year-ago period. The overall trend of rabi sowing progress is excellent, with increased area coverage recorded. Thus 15.36 lakh hectares more area has been covered than last year's same period due to good sowing and favorable weather.

As per trade sources, India has exported around 1.85 lakh tonnes in the month of November-2020 at an average FOB of \$468.24 per tonnes, higher this year and the major destinations were Bangladesh, Sri Lanka, Nepal and UAE. Exports are likely to be at higher side as other countries are providing wheat at higher prices. High export will going to support the domestic market in near term.

According to traders, Wheat prices rose in Indore due to firm demand amid steady arrivals, traders said. Bulk demand rose ahead of Christmas, they said. Arrivals were pegged steady at 4,000 bags (1 bag = 100 kg). In Jaipur, too, wheat prices increased as demand rose from bulk buyers, traders said. Arrivals were pegged at 1,500 bags. The outlook is bullish as retail demand is likely to pick up after the government schemes to provide free foodgrain to public distribution system beneficiaries ended in November, the traders said.

With the farmers protesting at the Delhi/NCR borders against the three new farm laws, wheat cultivation back home in their States of Punjab, Haryana, and Rajasthan has taken a hit in the current rabi season. States like Madhya Pradesh and Maharashtra, from where not many farmers have participated in the protests, have sown more wheat or rabi crops this year.

Indian traders have signed two deals to export around 200,000 tonnes of wheat to Bangladesh. According to market sources, The traders are exporting wheat at \$210-\$220 per tonnes, FOB, and \$250-\$260 per tonnes, free on board, under the two deals in the coming few weeks. The export price of Indian wheat has been falling as domestic prices have weakened over the past few months.

International Market Update:

The Rosario Board of Trade (BCR) forecasts total Argentinian wheat production will fall 15% on the year to 16.5 MMT, the second lowest output in a decade on extreme drought. The Buenos Aires Grain Exchange (BAGE) predicts production will total 16.9 MMT and USDA pegs the 2020/21 harvest at 18.0 MMT.

FranceAgriMer, France's agriculture office, reported the country's winter wheat farmers made considerable progress last week, 66% of France's soft (non-durum) wheat is now in the ground, up from last week's 45% and in line with the five-year average.

Ukraine As of Dec. 16, total Ukrainian grain exports are down 14% from this time last year at 23.8 MMT. 12.2 MMT of which is wheat. In October, Ukraine implemented a 17.5 MMT wheat export quota for the 2020/21 marketing year and current sales account for 70% of the quota.

US wheat futures edged higher on Tuesday, as prices rebounded from a 3% decline marked in the previous session, amid expectations of stronger demand for US supplies after leading exporter Russia moved to limit exports.

China sold 593,161 tonnes of wheat, 14.75% of its total on offer, at an auction of state reserves last week, the National Grain Trade Centre said in a statement on Monday. The average selling price of the wheat is 2,342 yuan (\$357.51) per tonne, the trade Centre said.

World wheat prices remained firm this month, mostly due to dry weather impacting the start of the growing season in the Northern Hemisphere and unfavorable production conditions in Argentina. Strong global export demand drove
