

Wheat Domestic Fundamentals:

The arrival of Wheat has increased in Indore, Ujjain, and Bhopal Mandis of Madhya Pradesh. Presently, Wheat is being sold up to an average of 7000 quintals per day, while farmers are also getting better prices. The arrival of new Wheat has started in Mandi for the last 20 days. Other varieties of Wheat, including Sharbati, Lokvan, are also coming on sale. Due to this, the figure has reached beyond seven thousand quintals.

As per the ministry's data, wheat crop has been harvested in 64.96 lakh hectares, 21 per cent of the estimated total cultivated area of 315.77 lakh hectares during the rabi season of the 2020-21 crop year (July-June)

Because of the Covid-19 spike in the state, the Punjab government will kick-start the wheat procurement operations from April 10. The decision to delay the procurement was taken at a Covid review meeting, the department needed more time to make arrangements to ensure safe procurement amid the surge in Covid cases. While Haryana to start wheat procurement from April 1.

FCI has made the following changes in wheat procurement policy. The moisture content decreased from 14% to 12%, foreign matter content has decreased from 0.75% to 0.50% and damage wheat content decreased from 4% to 2%. So that wheat can be exported.

All India's weekly average prices decreased by 3.37 percent to Rs. 1965.97 per quintal during the week ended 15th Mar 2021. Wheat average prices were ruling at Rs 2065.6 per quintal during 09th–15th Mar 2020. Due to upcoming demands from Multinational companies, Wedding season It is unlikely that any slowdown in the wheat market and prices will increase for a longer period.

Haryana state government will start the procurement of wheat from April 1. If a transporter does not lift the crop from the market in 48 hours, then a fine will be imposed on him.

As per sources, the Agriculture Department Rain, coupled with hailstorms and strong winds that lashed the Haryana, Punjab, and Rajasthan on Tuesday night, caused damage to Wheat's standing crop. It will also disturb the harvesting in Madhya Pradesh and will lower the quality of Wheat. Due to which price me slight increase from the current level.

Once again, Madhya Pradesh has obtained permission to procure 135 lakh tonnes of wheat, leaving behind Punjab in wheat procurement. The central government has allowed Madhya Pradesh to purchase 135 lakh metric tonnes of wheat at the support price for 2021. The state government had proposed to purchase more than 140 lakh metric tons with the centre. At the same time, Punjab has got approval to buy 115 lakh tonnes, Haryana to buy 99 lakh tonnes, and Uttar Pradesh 55 lakh tonnes of wheat.

The Uttar Pradesh will purchase wheat directly from farmers from April 1 to June 15 under the Minimum Support Price Scheme. The move is aimed at placating farmers who are agitating against farm laws and also to ensure that they get MSP for their produce. UP Food Commissioner Manish Chauhan said in an official statement that the wheat purchase will start from April 1 on the fixed MSP of Rs 1,975 per quintal this year.

According to the Union Secretary, Department of Food & Public Distribution, A total quantity of 427.363 lakh tonnes wheat has been estimated for procurement during the forthcoming RMS 2021-22 which is 9.56 per cent more than the 389.93 lakh tonnes procured during RMS 2020-21. Wheat is a major rabi (winter-sown) crop. Harvesting starts from end of this month but picks up pace from April.

India is likely to harvest a record 109.24 million tonnes of wheat this year, the agriculture ministry said, further boosting stocks at government granaries that are fast running out of storage space due to more than a decade of bumper production. Wheat output in India, the world's second-biggest producer, is expected to go up by 1.3% in the crop year to June 2021, the Ministry of Agriculture and Farmers' Welfare said in its second crop forecast for 2020-21. Whereas Agriwatch estimates its wheat production estimate for MY 2020-21 will be 104 MMT.

International Market Update:

Ukrainian wheat export prices have lost around \$10 a tonne this week due to restrained demand from importers and an increase in European grain's attractiveness, APK-Inform agriculture consultancy said on Thursday. The expected improvement in the state of winter crops in the United States and the Black Sea region due to heavy rainfall forecast was an additional factor. The government has said that favourable weather could increase farmers' grain crop to 75 million tonnes this year from 65.5 million tonnes in 2020. It told the exports could reach 53 million tonnes in the 2021/21 season.
