

Wheat Domestic Fundamentals:

Procurement of Wheat in ongoing RMS 2021-22 is continuing smoothly in the procuring States of Haryana, Uttar Pradesh, Madhya Pradesh, Rajasthan, Himachal Pradesh, Delhi, and Jammu & Kashmir at MSP, as was done in previous seasons, and till now (up-to 2.06.2021) a quantity of over 411.13 LMT of Wheat has been procured. About 44.43 lakh farmers have already been benefitted with MSP value of Rs.81,196 crore from the ongoing RMS procurement operations. According to FCI, there were about 19,036 wheat procurement centres during the ongoing 2021-22 rabi marketing season. Total stock of wheat in the central pool is around 525.65 LMT which is higher than buffer stock norms.

Punjab Government and agencies have procured 132.10 lakh metric tonnes of wheat, 2 lakh metric tonnes with more than 8 lakh farmers receiving over Rs 23,000 crore directly into their bank accounts. It was the first time in Punjab that farmers were paid directly instead of through arhtiyas or middlemen.

As per ministry recent estimates, India is likely to produce higher Wheat crop in 2020-21. The country may produce 108.75 million tonnes in this season which is higher by 0.89% from 107.86 from last year record amid good monsoon rain last year.

According to a release from the FCI, the government has set the auction of good-quality wheat procured in 2021-22 marketing season at Rupees 21,500/mt (\$293/mt). In the 2020-21 marketing season, the government sold wheat slightly lower than the current prices, at Rupees 21,350/mt. The hike in fair-quality wheat is seen pushing up export prices of the grain, as most traders will turn to these auctions to purchase while most benchmark markets are shut due to COVID-19 related restrictions.

The government procurement agencies in Haryana have procured total 84.93 LMT consisting 6.94 LMT by FCI and 77.99 LMT by state agency. Expecting bumper produce this year, the government had increased the procurement target.

International Market Update:

As per USDA, wheat export inspections of U.S. declined 57% to 9.4 million bushel week over week. Cumulative totals for the 2020/21 marketing year still have a slim lead over last year's pace, with 927.1 million bushels. Mexico was the main buyer of U.S. wheat export inspections with 3.3 billion bushels. South Korea, Italy, the Philippines and Brazil were also top five buyers. U.S. Wheat sales delivery declined by 76% to 29,500 metric tonnes in the 2021-21 marketing year which ended on 31st May 2021.

Russian wheat export prices slumped for the summer's new wheat crop after fall in Chicago and Paris. Russian wheat loading from black sea port with 12.5% protein was at \$256 per tonne free on board (FOB) at the end of last week which was lower by \$4 from the previous week. IKAR and Sovecon forecast Russia's 2021 wheat crop at 79.5 million tonnes and 80.9 million tonnes respectively.

As per WASDE recent report, beginning stocks of the world will be at 295 million metric tons (MMT) in 2021/22 lower by 2% from 2020/21 estimates, with ending stocks also projected at 295 MMT. While, global wheat production is expected to reach a record 789 MMT, global consumption is also forecast at a record 789 MMT.

There is another international tender to purchase 50,000 tonnes of milling wheat by state grains buyer of Bangladesh. The local prices of wheat and rice are high due to crop damage caused by repeated flood so the country has series of import of wheat and rice to fill its depleted reserves. Deadline for price submission is May 30.
