Wheat Domestic Market Fundamentals: -

All India weekly average prices increased by 0.11 percent to Rs. 1802.44 per quintal during the week ended 15th October 2016. Wheat average price were ruling at Rs 1800.47 per quintal during 01-08th October 2016. As compared to prices in the week 09-15th October 2015, the prices are firm by 0.24 percent. Prices have become firm on account of festive demand.

India imported around 101804 tonne wheat from Australia, Ukraine and France last week till 08th Oct-2016 at an average CIF of \$221.26 per tonne. Around 43000 tonne has been imported from Ukraine at an average CIF of \$190.58 per tonne, 40880 tonne of Australian wheat at an average CIF of \$247.38 per tonne, 17750 tonnes of French wheat at an average CIF of \$207.84 per tonne and a small quantity of 373 tonnes has arrived from Moldova at an average CIF of \$228.59 per tonne.

According to latest update, export of wheat has increased compared to last week. In the week (03-08 October) the exports were around 472 metric tonnes compared to 256.55 metric tonnes in the week (26 Sept to 02 Oct). The said quantity was exported at an average FOB of \$ 339.20 per tonne and the major destinations were UAE, Kuwait, Somalia and Bahrain. Total export till 08nd Oct-2016 since 4th April was registered around 23862 tonne. Export window remained restricted due to disparity.

Government has reduced import duty on wheat, Crude palm oil and refined vegetable oils in order to curb food inflation. The import duty on wheat has been reduced from 25 percent to 10 percent. Traders were expecting a reduction in import duty to make imports cheaper and ease the pressure on domestic market. Private traders have already imported around 600000 tonnes in the current marketing year.

Agriwatch has revised its wheat production estimate down from 89.28 to 87.20 MMT In end May-2016. Carryout for next year would decrease from 15.38 to 12.58 MMT. Availability would be lower at 104.58 MMT for the current year. Consumption would remain same as last year.

Agricultural Statistics Division, Directorate of Economics & Statistics (DES) has released Fourth Adv. Estimate for Rabi crop for 2015-16 on 2nd Aug-2016. Production target for wheat in Rabi had been set at 94.75 lakh tonne for 2015-16 crop years. Now it has been revised down to 93.50MMT.

Latest Developments In Domestic Markets :-

As per latest update FCI has sold around 24.6 lakh tonnes wheat under OMSS during April to September. The bulk quantity has been purchased by private players under OMSS. The sales under OMSS rallied from June and are still continuing, wheat has been sold at Rs 1640 per quintal plus freight charges. Stock in central pool as on 1st September 2016, was 24.2 million tonnes. Given the average total consumption of around 17 million tonnes for the next seven months till March'17, stock in central pool might be around 7.3 million tonnes as on 1st April'17 which is equivalent to required norms.

Indian FoB quote is hovering around \$280.5 per tonne. Against it Russia, Ukraine, France, US and Australia are offering wheat at \$164, \$165.5, \$180, \$182.5 and \$198.5 per tonne respectively. Around 40880 tonnes of wheat have been imported from Australia at Tuticorin (CIF \$246.47 per tonne) and Cochin (CIF \$248.43 per tonne) port. Furthermore around 43000 tonnes and 17550 tonnes of wheat have been imported from Ukraine and France respectively.

Rake loading from Rajasthan to Bangalore is being reported at 2020/2015per qtl. As demand continues, prices in domestic market is likely to trade stable to slightly firm despite import and regular release from central pool stock through various channels.

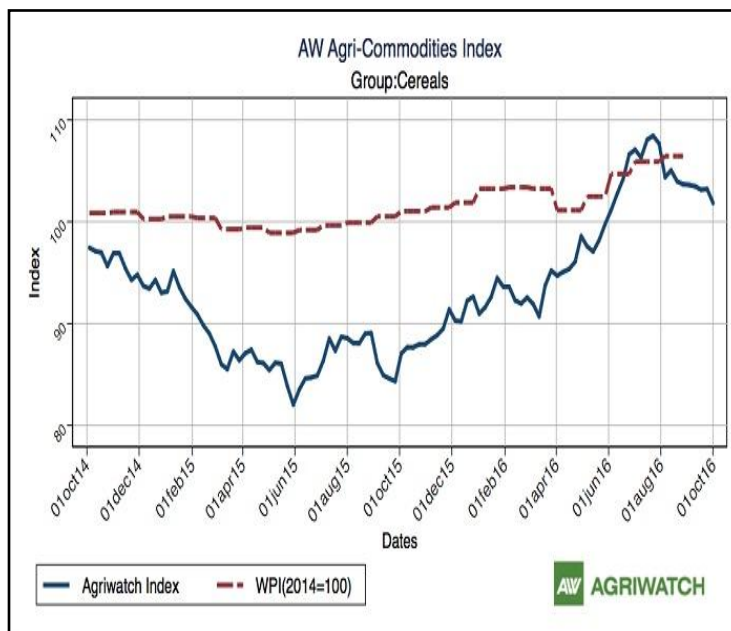

Outlook & Recommendation:-Wheat cash market is expected to trade steady to firm in the coming week.

Trade Call: Stakeholders should trade in November contract taking care of lower and upper price tag of Rs 1750 & 1825 respectively.

Agriwatch Cereals Index:

The Agriwatch Agri Commodities Index edged down 0.20% to 115.90 during the week ended Oct 1, 2016 from 116.13 during the previous week. The base for the Index and all sub-Indices is 2014 (= 100).

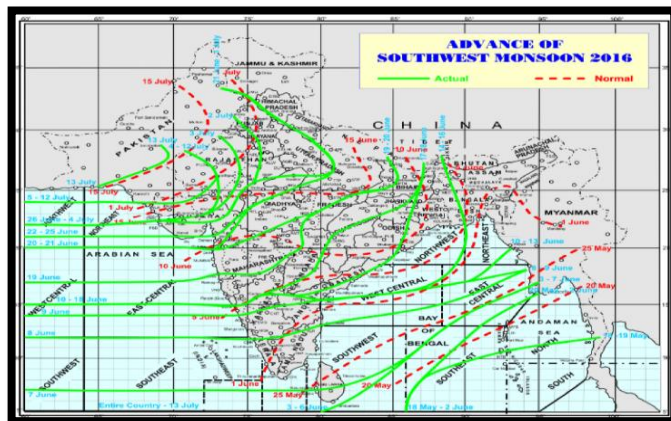

Decline in prices of cereals and vegetables offset the gains in pulses and edible oils. 6 of the 9 commodity groups and 19 of the 29 commodities that constitute the Index declined during the week. The commodity group sub-Index values and their weekly changes are as follows: Cereals: 101.83 (-1.34%), Pulses: 216.70 (+4.40%), Vegetables: 62.30 (-4.85%), Edible Oils: 116.0 (+0.68%), Oilseeds: 107.67 (-1.83%), Sweeteners (Sugar, Gur & Khandsari): 121.96 (-0.48%), Spices: 135.90 (-0.83%), Fibres: 98.82 (-3.23%) and Other Non-Food Articles: 77.57 (+2.25%)

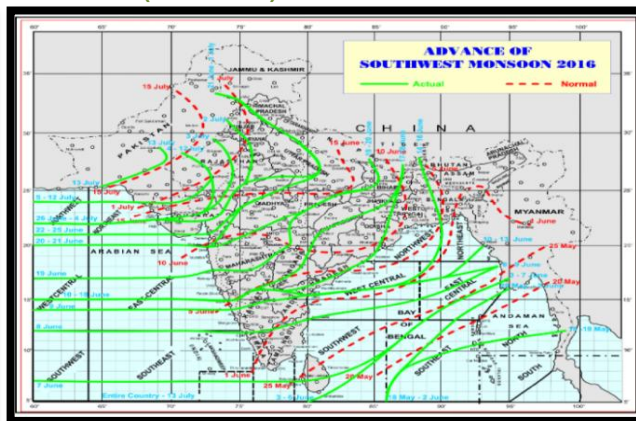

"Agriwatch has recently launched its AW Agri Commodity Indices to enable organizations access independent Indices to track and use to benchmark their purchases and sales. The Indices are based on the daily prices in the key benchmark markets for each commodity that AW has been covering for the past decade. The indices include an Aggregate Index, Category Indices and individual commodity indices. The weekly indices are free to access on our website www.agriwatch.com. The daily indices are available on subscription. Please contact for more details."

Weather Condition & Monsoon Progress:

Last week 02.09.2016

This week (08.09.2016)

The depression over Jharkhand & adjoining Gangetic West Bengal has moved nearly westwards during past 12 hours and lay centred at 0530 hours IST of today i.e. 18th August, 2016, over Jharkhand & neighborhood, near Lat. 24.0°N and Long. 85.0°E, about 85 km north, northwest of Ranchi (Jharkhand) and 95 Km east of Daltonganj (Jharkhand). The system is very likely to move westwards and weaken into a well marked low pressure area. The axis of monsoon trough at mean sea level, now passes through Ganganagar, Narnaul, Agra, Sultanpur, centre of depression, Midnapore and thence southeastwards to east central Bay of Bengal and extends up to 0.9 Km above mean sea level. The feeble off-shore trough from south Gujarat coast to Karnataka coast persists.

Wheat Weekly Ave Price Chart:

Wheat average mill delivery prices traded firm in Indore, Ahmedabad, Kota and Delhi during 07-13th October. Prices have become firm on account of festive demand.

Pressure on wheat market may be seen as government has revised wheat import duty from 25% to 10%. With import duty being revised down, South Indian demand for wheat may decrease with the commencement of import by south Indian millers. Market may trade steady to firm in coming month.

1st Oct.	82.5	175.2	257.7	20	30	307.7
1st Jan	56.1	108	164.1	20	30	214.1
Buffer Norms w.e.f. 22.01.2015						

Procurement As on 28th June-2016:

State	Total Procurement In Marketing Season 2015-16 (April To March)	Progressive Procurement As on 28.06.2016 (Fig In Lakh Tonne)		
		In Marketing Season 2016-17	In Marketing Season 2015-16	% Ch Over Previous Year
Punjab	103.54	106.44	103.54	+2.80
Haryana	67.78	67.22	67.78	-0.83
Gujarat	0.73	0.00109	0.73	-99.85
Uttar Pradesh	22.67	8.2376	22.67	-63.66
MP	73.09	39.9	73.09	-45.41
Rajasthan	13	7.617	13	-41.40
Others	0.07	0.02	0.07	-71.43
All India	280.88	229.44	280.88	-18.32

Total wheat procurement was registered at 229.44 lakh tonne till 28th June -2016. Against set target of 30 MMT total procurement may end up with 23 MMT this year. Till date it is lower by 18.32 % from last year.

FOB Quote For Wheat At Kandla:

Wheat FoB quote in India has increased slightly. There are no takers at higher level. However, govt.'s intention to augment supply in domestic market from central pool stock too may restrict uptrend from current level.

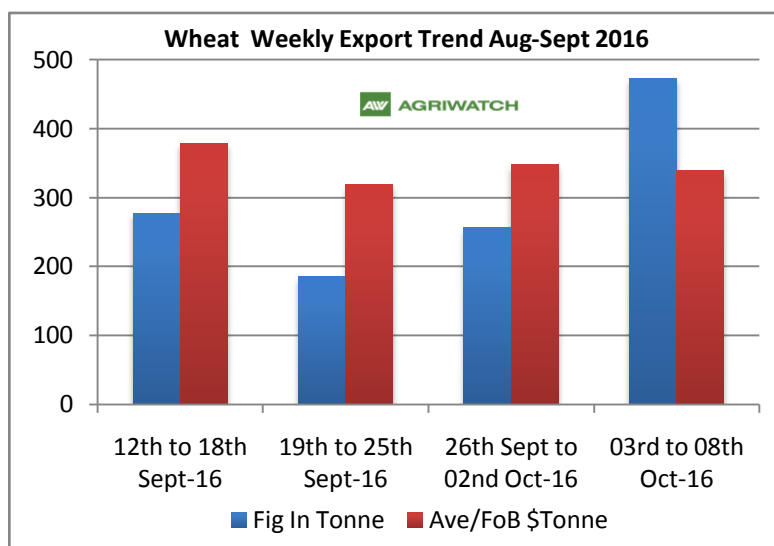

Prices of wheat may stay steady to slightly weak at current level. Supply demand side seems balanced despite lower arrivals and farmer's retention of higher percentage of marketable surplus likely to hit market as import duty is slashed by the government.

Wheat Export Weekly Data:

Wheat export volume has been negligible during last few weeks and there is no hope for any major recovery in coming weeks as disparity continues to discourage exporters.

India exported 472 tonnes of wheat during week ended 08th Oct-2016, up by 83.98 percent from previous week. Average FoB quote realized last week was \$339.20 per tonne. As prices are ruling lower in global market export opportunity for Indian wheat exporters seems bleak. Major buyers were UAE, Kuwait, Somalia and Bahrain.

Wheat Import:

According to latest update, a total quantity of around 101804 tonnes of wheat has been imported from Australia, France, Ukraine and Moldova after revision of import duty from 25% to 10%. Of the total quantity imported 43000 tonnes has been imported from Ukraine and rest is from France, Australia and Moldova.

As import duty has been slashed, import volume may exceed 2MMT in current MY. It would impact demand of south Indian millers from central and north India. Off-take from central pool may decrease.

Wheat Technical Analysis:

Technical Commentary:

- Rise in price and open interest indicates long buildup.
- RSI is moving up in neutral region.
- Last candlestick donates bullishness in the market.
- Traders are advised to go long on wheat for this week.

Strategy: Buy

			S1	S2	PCP	R1	R2
Wheat	NCDEX	Nov	1750	1740	1773	1815	1825
Weekly Trade Call			Call	Entry	T1	T2	SL
Wheat	NCDEX	Nov	Buy Above	1775	1790	1800	1766

Domestic Market Weekly Outlook:

Cash wheat market is likely to stay steady to firm in the coming week. Continuous import may restrict south Indian miller's demand to some extent and release from private stock may increase. Revision of import duty has pressurized inner tone of the market.

International Market Update:

Japan's Ministry of Agriculture has bought around 100140 tonnes of wheat from United States and Canada. Out of the total quantity around 72225 tonnes was bought from United States with a minimum protein content of 14 percent and around 27915 tonnes was bought from Canada with a minimum protein content of 13.5 percent. The shipments from US are expected to arrive by 31st January 2017, whereas loading from Canada will take place between 21st November and 20th December 2016.

GASC has purchased 480000 tonnes of Russian and Romanian wheat through tender after abolishing its zero-tolerance policy towards ergot. Louis Dreyfus offered 60000 tonnes at FOB \$181.7/tonne, ADM offered three cargoes each of 60000 tonnes at an average FOB of \$180.33/tonne, Union offered 60000 tonnes at FOB \$177.7/tonne, Aston offered 60000 tonnes at FOB \$183.5/tonne, Alegrow offered 60000 tonnes at FOB \$179.5/tonne and Venus offered 60000 tonnes at FOB \$181.45/tonne

According to latest update by International Grains Council, the production forecast has been increased by 4 million tons for crop year 2016-17. The production may touch 747 million tons against a forecast of 736 million tons for 2015-16. The difference is around 11 million tons. Higher projection for wheat may pressurize global wheat at current level and any major recovery from current level is unlikely.

Australia's wheat crop is expected to fall due to damages caused to the crop by recent rainfalls. East coast of the country is expected to receive around 100 millimeters of rainfall, which will lead to wetter than average conditions until November. Furthermore east coast of the country produces high protein wheat which means crop loss in the region will limit the exports with the country. Earlier a forecast of 28.1 million tonnes was given for production which is likely to be revised in the near future.

Russia has decided to revise its wheat export duty to zero in order to reduce risks for traders arising from volatility in rouble currency and to make forward contracts more attractive. Russia's largest foreign buyer of wheat from 1-12 September was Bangladesh with 244800 tonnes. Egypt is usually the largest buyer of Russian wheat was at third place due to its zero-tolerance ergot policy which has been changed to 0.05 percent since September 22. The volume will depend on whether traders will be able to export 373000 tonnes of wheat to Egypt that has been bought but not yet accepted due to change in its zero-tolerance ergot policy.

GASC has purchased 240000 tonnes of Russian wheat through tender after abolishing its zero-tolerance policy towards ergot. Louis Dreyfus offered 60000 tonnes at FOB \$189/tonne, union offered three cargoes each of 60000 tonnes at FOB \$ 178.78/tonne, Olam offered 60000 tonnes at FOB \$187.79/tonne and Aston offered 60000 tonnes at FOB \$179/tonne. Earlier suppliers were reluctant in making offers as they were afraid whether import authorities will tolerate negligible level of ergot or not in their cargoes.

Egypt has imported around 11 million tonnes of wheat in the marketing year 2015-16 making it the largest importer of wheat in the world. Egypt has changed its zero tolerance policy towards ergot. Now 0.05 percent ergot is allowed in wheat shipments although shipments of around 540000 tonnes have been suspended as last month months ban has been applied to all outstanding contracts.

France has harvested one of its worst wheat crops on account of heavy rainfall in late May to mid June as well as low sunshine during the crop's growth period. This year France's area is up by 1.3% (5.23million hectares) whereas production and yield are down by 30% (28.47 million tonnes) and 31% (5.45 tonnes per hectare) respectively compared to last year.

IGC Wheat Balance Sheet:

IGC Forecast(Fig-In MMT)	2013-14	2014-15	2015/2016	2016-17 (Projected)	
			Forecast	25.08.2016	29.09.2016
Production	717	730	736	743	747
Trade	157	153	165	162	164
Consumptions	699	716	721	732	734
Carryover stocks	188	203	218	229	231
Y-O-Y change	19	14	15	-	13
Major Export	54	64	65	70	70

- IGC has revised wheat production projection up by 4MMT from 743MMT to 747MMT on 29th, Sep-2016 for crop year 2016-17. According to IGC global wheat production for 2016-17 may touch 747 MMT against 736 forecasts for 2015-16. The difference is around 11 MMT from previous estimate. Higher projection for wheat may pressurize global wheat market at current level and any major recovery from current level is unlikely.
- Trade projection has been revised up by 2MMT to 164MMT. However it is 1MMT lower from actual of last year.
- Consumption has been pegged at 732MMT for 2016-17, up by 13MMT from last year.
- Carryout may increase from 229 to 231 in 2016-17. It would ensure ample supply for the global market and continue to affect market sentiment.

(\$ per tonne)

Market is likely to move from range bound to firm as USDA has cut its forecast for global inventories. Furthermore firm demand from importers have also supported recent rally seen in CBOT.

International FOB Weekly Price Movement (USD/T)

Indian FoB quote is based on local price. There is no export in bulk volume currently. Indian FoB quote is hovering between \$279 to 281 per tonne.

US and Russian quotes are hovering in the range of \$182.5 and \$164 per tonne respectively. More dip is unlikely as buyers are expected to return to the market at lower level. Australia offers wheat at \$198.5 per tonne.

Wheat quotes are expected to rise further and hover in the range of \$165 to \$205 in coming weeks.

International Weekly Outlook:

Global wheat market is expected to trade from steady to firm as USDA has cut its forecast for global inventories. Furthermore prolonged rains in Australia and dry weather in USA accompanied with firm demand from major importing countries are indicating towards a steady to firm market in short to medium term.
