Wheat Domestic Market Fundamentals: -

All India weekly average prices decreased by 0.74 percent to Rs. 1951.33 per quintal during the week ended 15th November 2016. Wheat average price were ruling at Rs 1965.88 per quintal during 09-15th November 2016. As compared to prices in the week 09-15th November 2015, the prices are firm by 11.14 percent. Prices are expected to remain range bound to slightly weak in coming days.

India imported around 149842 tonne wheat from Australia, Ukraine, France and Moldova last week till 06th Nov-2016 at an average CIF of \$217.39 per tonne. Around 57241 tonne has been imported from Australia at an average CIF of \$245.17 per tonne, 91358 tonnes of Ukraine wheat at an average CIF of \$199.45 per tonne and a small quantity of 1000 tonnes and 243 tonnes has arrived from France and Moldova at an average CIF of \$223.396 and \$224.72 per tonne.

According to latest update, export of wheat has been very low compared to last week. In the week (31 Oct-06 November) the exports were around 38.52 metric tonnes compared to 889.53 metric tonnes in the week 24-30 October. The said quantity was exported at an average FOB of \$ 396.18 per tonne and the major destinations were UAE, UK, Qatar and Jordan. Total export till 06th Nov-2016 since 4th April was registered around 26424 tonne. Export window remained restricted due to disparity.

Government has reduced import duty on wheat, Crude palm oil and refined vegetable oils in order to curb food inflation. The import duty on wheat has been reduced from 25 percent to 10 percent. Traders were expecting a reduction in import duty to make imports cheaper and ease the pressure on domestic market. Private traders have already imported around 600000 tonnes in the current marketing year.

Agriwatch has revised its wheat production estimate down from 89.28 to 87.20 MMT In end May-2016. Carryout for next year would decrease from 15.38 to 12.58 MMT. Availability would be lower at 104.58 MMT for the current year. Consumption would remain same as last year.

Agricultural Statistics Division, Directorate of Economics & Statistics (DES) has released Fourth Adv. Estimate for Rabi crop for 2015-16 on 2nd Aug-2016. Production target for wheat in Rabi had been set at 94.75 lakh tonne for 2015-16 crop years. Now it has been revised down to 93.50MMT.

Latest Developments In Domestic Markets : -

As wheat prices are not decreasing even after revision of import duty from 25% to 10% centre has decided to release one million tonne of wheat in the open market to keep prices of wheat in check. FCI has sold around 29.8 lakh tonnes wheat under OMSS during April to October. The bulk quantity has been purchased by private players under OMSS. The sales under OMSS rallied from June and are still continuing, wheat has been sold at Rs 1640 per quintal plus freight charges.

As per latest update FCI has sold around 29.8 lakh tonnes wheat under OMSS during April to October. The bulk quantity has been purchased by private players under OMSS. The sales under OMSS rallied from June and are still continuing, wheat has been sold at Rs 1640 per quintal plus freight charges. Stock in central pool as on 1st October 2016, was 21.65 million tonnes. Given the average total consumption of around 13.5 million tonnes for the next six months till March'17, stock in central pool might be around 7.8 million tonnes as on 1st April'17.

Indian FoB quote is hovering around \$315.22 per tonne. Against it Russia, Ukraine, France, US and Australia are offering wheat at \$177.3, \$178.8, \$183.58, \$183.38 and \$193.6.6 per tonne respectively. The latest consignments from Australia landed at Tuticorin (25845 T), Cochin port (4396 T), Mangalore (4000 T) and Chennai (23000 T) at CiF of \$242.42, \$250.98, \$229.01 and \$260.21 per tonne respectively. Around 1000 tonne, 91358 tonne and 243 tonne of wheat has been imported from France, Ukraine and Moldova respectively.

Outlook & Recommendation:-Wheat cash market is expected to trade steady to slightly weak in the coming week.

Trade Call: Stakeholders should trade in December contract taking care of lower and upper price tag of Rs 1945 &2070 respectively.

Agriwatch Cereals Index:

The Agriwatch Agri Commodities Index eased for the fourth straight week, declining 0.81% to 114.30 during the week ended Nov 5, 2016 from 115.24 during the previous week. The base for the Index and all sub-Indices is 2014 (= 100). The Index is now at its lowest since the week ending June 11, 2016 when it had closed at 113.62.

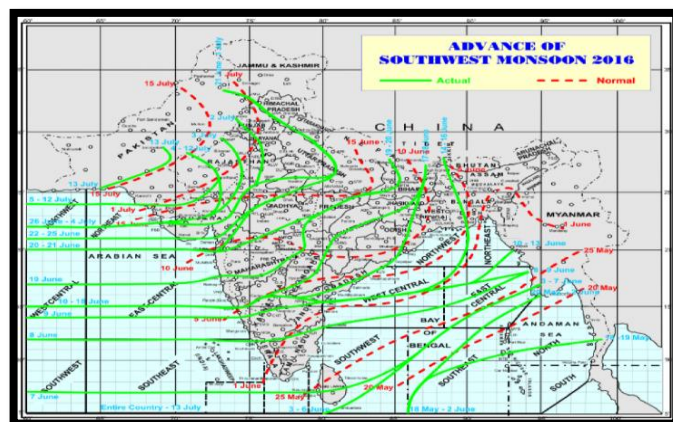

Lower pulses, sugar and edible oils offset gains in cereals and vegetables this week. The commodity group sub-Index values and their weekly changes are as follows: Cereals: 104.83 (+0.64%), Pulses: 221.71 (-4.20%), Edible Oils: 107.81 (-1.26%), Oilseeds: 102.30 (+0.82%), Vegetables: 67.71 (+6.18%), Spices: 128.95 (-1.85%), Sweeteners: 118.44 (-2.77%), Fibres: 96.83 (+4.86%) and Other Non-Food Articles: 74.11 (+0.01%).

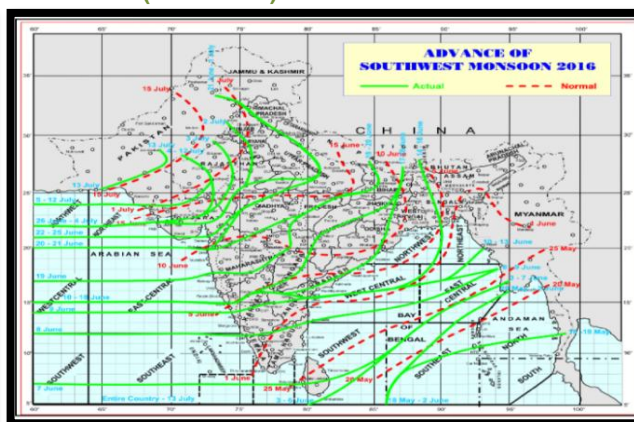

"Agriwatch has recently launched its AW Agri Commodity Indices to enable organizations access independent Indices to track and use to benchmark their purchases and sales. The Indices are based on the daily prices in the key benchmark markets for each commodity that AW has been covering for the past decade. The indices include an Aggregate Index, Category Indices and individual commodity indices. The weekly indices are free to access on our website www.agriwatch.com. The daily indices are available on subscription. Please contact for more details."

Weather Condition & Monsoon Progress:

Last week 02.09.2016

This week (08.09.2016)

The depression over Jharkhand & adjoining Gangetic West Bengal has moved nearly westwards during past 12 hours and lay centred at 0530 hours IST of today i.e. 18th August, 2016, over Jharkhand & neighborhood, near Lat. 24.0°N and Long. 85.0°E, about 85 km north, northwest of Ranchi (Jharkhand) and 95 Km east of Daltonganj (Jharkhand). The system is very likely to move westwards and weaken into a well marked low pressure area. The axis of monsoon trough at mean sea level, now passes through Ganganagar, Narnaul, Agra, Sultanpur, centre of depression, Midnapore and thence southeastwards to east central Bay of Bengal and extends up to 0.9 Km above mean sea level. The feeble off-shore trough from south Gujarat coast to Karnataka coast persists.

Wheat Weekly Ave Price Chart:

Wheat average mill delivery prices traded firm in Indore, Ahmedabad and Kota during 04th-10th November. Prices showed marginal decline in Delhi. Government has decided to release one million tonne of wheat in open market to keep the rising prices of wheat in check.

Import volume is not able to create pressure even after revision of import duty from 25% to 10% as wheat from MP and Rajasthan is still in demand by south Indian millers but the volume is lower.

Others	0.07	0.02	0.07	-71.43
All India	280.88	229.44	280.88	-18.32

Total wheat procurement was registered at 229.44 lakh tonne till 28th June -2016. Against set target of 30 MMT total procurement may end up with 23 MMT this year. Till date it is lower by 18.32 % from last year.

FOB Quote For Wheat At Kandla:

Wheat FoB quote in India has increased on account of lower or no arrivals. Furthermore due to fear of cash crunch in the market, daily trading activities in the have been affected. There are no takers at higher level. However, govt.'s intention to augment supply in domestic market from central pool stock too may restrict uptrend from current level.

Prices of wheat may stay steady to slightly weak at current level. Supply demand side seems balanced despite lower arrivals and farmer's retention of higher percentage of marketable surplus is likely to hit market as import duty is slashed by the government.

Wheat Export Weekly Data:

Wheat export volume has been negligible during last few weeks and there is no hope for any major recovery in coming weeks as disparity continues to discourage exporters.

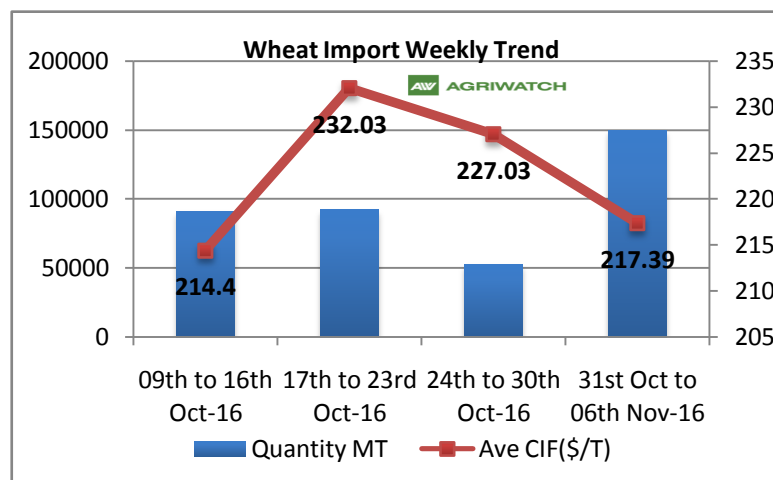

India exported 38.52 tonnes of wheat during week ended 06th Nov-2016, down by 95.67 percent from previous week. Average FoB quote realized last week was \$396.18 per tonne. As prices are ruling lower in global market export opportunity for Indian wheat exporters seems bleak. Major buyers were UAE, UK, Qatar and Jordan.

Wheat Import:

According to latest update, a total quantity of around 149842 tonnes of wheat has been imported from Australia, Ukraine and France after revision of import duty from 25% to 10%. Of the total quantity imported 91358 tonnes has been imported from Ukraine and rest is from Australia, Moldova and France.

As import duty has been slashed, import volume may exceed 2MMT in current MY. It would impact demand of south Indian millers from central and north India. Off-take from central pool may decrease.

International Market Update:

GASC has purchased 60000 tonnes of Russian wheat through tender after abolishing its zero-tolerance policy towards ergot. GASC received offers from Aston, Olam and Grainbow. Finally, GASC purchased the said quantity from Aston at \$202.14 a tonne cost and freight.

Egypt has introduced new wheat inspection system which may lead to lower prices. The GOEIC will be the sole body responsible for wheat inspections at shipping and arrival ports. After application of new system inspection costs is likely to be cut by half and traders will be allowed to discharge their cargo in bonded warehouses even before receiving approval.

According to Ukrainian official statistics, wheat stocks are down by 16 percent to 14.48 MMT as on 1st October'16 compared to 17.18 MMT for tons for the same date last year. Wheat stocks are down on account of higher exports in the current season. In the months (July-September) of 2016/17 wheat exports were 13 percent (6.18 MMT) higher compared to the same period for 2015/16.

According to latest update by International Grains Council, the production forecast has been increased by 1 million tons for crop year 2016-17. The production may touch 748 million tons against a forecast of 737 million tons for 2015-16. The difference is around 11 million tons. Higher projection for wheat may pressurize global wheat at current level and any major recovery from current level is unlikely.

According to Kazakh statistics committee, stocks of wheat have increased by 8 percent to 11.74 MMT compared to 2015. This included 10.42 MMT of milling wheat, 596.5 KMT of feed wheat and 724.6 KMT for seeds. Furthermore milling wheat export prices have also strengthened for Kazakh on account of increased demand from exporters, strong national currency and increase in milling wheat prices in black sea region. Therefore in the past week 12.5% wheat export prices increased by US \$8-10 to US \$172-178/MT FoB Aktau port.

GASC has purchased 420000 tonnes of Russian and Romanian wheat through tender after abolishing its zero-tolerance policy towards ergot. Louis Dreyfus offered 60000 tonnes at FOB \$182.74/tonne, Cargill offered 60000 tonnes at FOB of \$183.25/tonne, Ameropa offered 120000 tonnes at FOB \$185.93/tonne, Alegrow offered 60000 tonnes at FOB \$184/tonne, ADM offered 60000 tonnes at FOB \$184.25/tonne and Aston offered 60000 tonnes at FOB \$184/tonne. Of the total quantity purchased 180000 tonnes is of Russian origin and remaining 240000 tonnes is of Romanian origin.

After a record crop in 2015, Japan's wheat production is expected to drop significantly due to non conducive weather conditions. Around 65 percent of Japan's wheat is grown in Hokkaido area which has been adversely affected by heavy rains. As a result, yield estimates are revised down and total production is expected to fall by around 25 percent.

China has decided to keep its state wheat purchase price same for 2017. This is mainly done in order to protect local farmers. According to National development and Reform Commission (NDRC), the government's minimum purchase price will be 2360 Yuan or \$349.18 per tonne

The Saudi Arabia Grain Organization has purchased 595000 tonnes wheat through tender. The said quantity will arrive at three different ports. Around 360000 tonnes will arrive at Jeddah port, 180000 tonnes at Dammam and the remaining 55000 tonnes at Jazan port. In its last tender on 15th August'16 SAGO purchased 640000 tonnes of hard wheat. Saudi Arabia abandoned plans of self sufficiency in 2008 as farming in desert reduced scarce water resources and became a major importer of hard and soft wheat.

IGC Wheat Balance Sheet:

IGC Forecast(Fig-In MMT)	2013-14	2014-15	2015/2016	2016-17 (Projected)	
			Forecast	29.09.2016	27.10.2016
Production	717	730	737	747	748
Trade	157	153	164	164	167
Consumptions	698	715	720	734	736
Carryover stocks	190	205	222	231	233
Y-O-Y change	19	15	17	-	12
Major Export	56	65	68	70	70

- IGC has revised wheat production projection up by 1MMT from 747MMT to 748MMT on 27th, Oct-2016 for crop year 2016-17. According to IGC global wheat production for 2016-17 may touch 748 MMT against 737 forecasts for 2015-16. The difference is around 11 MMT from previous estimate. Higher projection for wheat may pressurize global wheat market at current level and any major recovery from current level is unlikely.
- Trade projection has been revised up by 3MMT to 167MMT. It is 3MMT higher from actual of last year.
- Consumption has been pegged at 736MMT for 2016-17, up by 16MMT from last year.
- Carryout may increase from 231 to 233 in 2016-17. It would ensure ample supply for the global market and continue to affect market sentiment.

(\$ per tonne)

Market is likely to move from range bound to slightly weak as ample supplies are available in the market

International FOB Weekly Price Movement (USD/T)

Indian FoB quote is based on local price. There is no export in bulk volume currently. Indian FoB quote is hovering between \$293.85-322.19 per tonne.

US and Russian quotes are hovering in the range of \$183.38 and \$177.3 per tonne respectively. Rains in North eastern and frost in western region is preventing farmers from gathering wheat on time in Australia, which has delayed harvesting by three weeks and two weeks in western and eastern region respectively.

Wheat quotes are expected to trade steady to slightly weak and hover in the range of \$170 to \$200 in coming weeks.

International Weekly Outlook:

Global wheat market is expected to trade from steady to slightly weak as ample supplies are available despite crop loss in France and expectation of output being near record in Australia. Although rains and frost in regions of Australia have delayed harvesting. USA has abundant domestic supplies but it is facing low export demand as its prices are not competitive compared to other suppliers in the international market. Steady to slightly weak market is expected in short to medium term.
