Wheat Domestic Market Fundamentals:-

All India weekly average prices increased by 0.03 percent to Rs. 1829.75 per quintal during the week ended 08th May 2017. Wheat average price were ruling at Rs 1829.29 per quintal during 24-30 April 2017. As compared to prices in the week 01-08 May 2016, the prices are firm by 7.89 percent. Prices are expected to remain range bound to slightly weak in coming days.

Government agencies have started procurement since 15th March'17. Until 05th May'17 government has procured around 258 lakh tonnes of wheat. Of the total quantity procured, around 54.08 lakh tonnes has been procured from Madhya Pradesh, 72.01 lakh tonnes from Haryana, 112.20 lakh tonnes from Punjab and 11.40 lakh tonnes from Uttar Pradesh. In Rabi marketing season 2017-18 government has set procurement target of 330 LMT. Government has achieved 78.18% of its procurement target. Last year government was able to procure only 229 lakh tonnes due to lower production.

As per latest update, until 04th May around 72.17 lakh tonnes of wheat have arrived in Haryana. Traders and five government agencies have purchased 6834 tonnes and 72.10 lakh tonnes of wheat respectively. Of the total quantity procured by government agencies around 17.82 lakh tonnes has been procured by food, civil supplies and consumer affairs department, 25.90 lakh tonnes by HAFED, 8.50 lakh tonnes by FCI, 6.61 lakh tonnes by Haryana Agro Industries corporation and 13.26 lakh tonnes by Haryana warehousing corporation. Sirsa is the leading district with 10.29 lakh metric tonnes of arrival. Grain quality is better this year compared to last year and there are no issues relating to higher moisture and pest.

Wheat WPI has decreased from 247.7 in February to 238.8 in March-2017. Monthly wheat inflation has decreased by 3.59 percent in March-17 compared to February-17. As compared to March-16, wheat WPI has increased by around 4.65% and by 10.81% compared to February -2015.

As per latest update, area sown until 03 February'17 is 317.81 lakh hectares compared to 297.25 lakh hectares in the previous Rabi season. Among various States, the area is down in Jammu & Kashmir and Karnataka, whereas Punjab, Haryana and Uttar Pradesh have seen an increase in area compared to corresponding date of last year. The normal area is 304.05 lakh hectares. Area is expected to be higher this year as government has increased MSP of wheat which has motivated farmers to sow more area.

Agriwatch has given its production estimate of 93.5 MMT for 2017-18. Carryout is expected to be around 13.98 MMT. Availability would be 108.48 MMT, higher compared to last year on account of increased production. Consumption is likely to be around 94 MMT. Directorate of Economics & Statistics has maintained production figure at 93.50 MMT in fourth Adv estimate released on 2nd Aug-2016 against target of 94.75 for the year. Final figure is likely to be revised as per market expectation.

Latest Developments In Domestic Markets: -

Indian FoB quote is hovering around \$258.27 per tonne. Against it Russia, Ukraine, France, US and Australia are offering wheat at \$180.42, \$181.92, \$164.58, \$178.75 and \$186.34 per tonne respectively. The latest consignments from Australia landed at Tuticorin (28901 T), Cochin port (1000 T) and Mangalore (4000 T) at CiF of \$239.42, \$243.6 and \$226.02 per tonne respectively. Around 1500 tonne and 94665 tonne of wheat have been imported from France and Ukraine respectively.

Government may not increase import duty to 25% and keep it unchanged at 10% as it is expecting a production of 96.6 million tonnes. At prevailing duty of 10%, Indian flour millers are still importing wheat from Australia. Around 150000 tonnes of Australian wheat has been purchased for May shipment with a protein content of 9% at \$220-221 per tonne cost & freight.

Outlook & Recommendation:-Wheat cash market is expected to trade steady to slightly weak in the coming week.

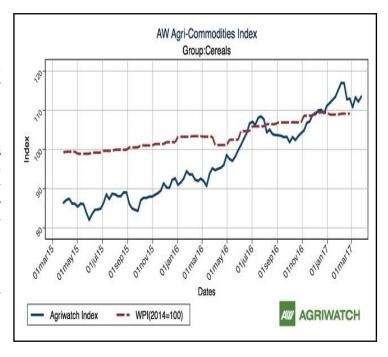

<u>Trade Call</u>: Stakeholders should trade in June contract taking care of lower and upper price tag of Rs 1570 & 1670 respectively.

Agriwatch Cereals Index:

The Agriwatch Agri Commodities Index rose 0.74% to 110.34 during the week ended March 25, 2017 from 109.53 during the previous week led by higher cereals and pulses. The base for the Index and all sub-Indices is 2014 (= 100).

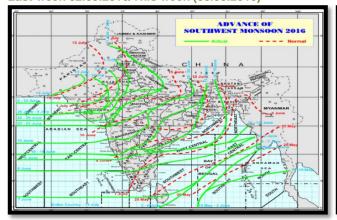

Seven of the 9 commodity group sub-Indices and 15 of the 29 individual commodity sub-Indices that constitute the main Index gained during the week. Spices and Sweeteners were the only declining groups this week. The commodity group sub-Index values and their weekly changes are as follows: Cereals: 113.47 (+1.16%), Pulses: 137.35 (+3.20%), Vegetables: 41.18 (+0.41%), Edible Oils: 104.47 (+0.60%), Oilseeds: 90.01 (+0.80%), Spices: 97.92 (-3.29%), Sweeteners: 125.31 (-0.44%), Fibres: 115.44 (+1.72%) and Other Non-Food Articles: 95.34 (+0.08%).

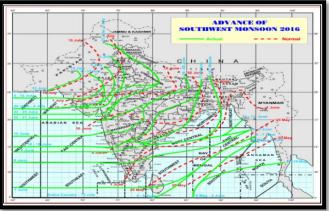

"Agriwatch has recently launched its AW Agri Commodity Indices to enable organizations access independent Indices to track and use to benchmark their purchases and sales. The Indices are based on the daily prices in the key benchmark markets for each commodity that AW has been covering for the past decade. The indices include an Aggregate Index, Category Indices and individual commodity indices. The weekly indices are free to access on our website www agriwatch.com. The daily indices are available on subscription. Please contact for more details."

Weather Condition & Monsoon Progress:

Last week 02.09.2016/This week (08.09.2016)

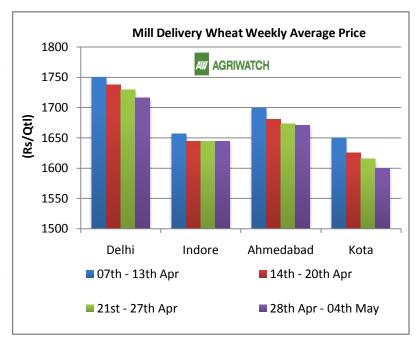

The depression over Jharkhand & adjoining Gangetic West Bengal has moved nearly westwards during past 12 hours and lay centered at 0530 hours IST of today i.e. 18th August,2016, over Jharkhand &neighborhood, near Lat. 24.0°N and Long. 85.0°E, about 85 km north, northwest of Ranchi (Jharkhand) and 95 Km east of Daltonganj (Jharkhand). The system is very likely to move westwards and weaken into a well marked low pressure area. The axis of monsoon trough at mean sea level, now passes through Ganganagar, Narnaul, Agra, Sultanpur, centre of depression, Midnapore and thence southeastwards to east central Bay of Bengal and extends up to 0.9 Km above mean sea level. The feeble off-shore trough from south Gujarat coast to Karnataka coast persists.

Wheat Weekly Average Price Chart:

Wheat average mill delivery prices traded steady to slightly weak in Indore, Delhi and Ahmedabad and kota during 28th April–04th May. Prices are expected to remain steady to slightly weak.

Procurement has crossed the mark of 25 MMT and government is likely to procure between 30-31 MMT. Arrivals as well as progressive procurement are higher compared to last year during the same period. As of now government is procuring in Gujarat, Rajasthan, Madhya Pradesh, Punjab and Haryana. Furthermore in Uttar Pradesh government has announced a bonus of Rs 10/Qtl. above MSP and additional procurement centers will also be established in U.P.

Total wheat procurement was registered at 229.44 lakh tonnes till 28th June -2016.Against set target of 33 MMT Government has procured 164.52 lakh tonnes until 21st April-16.

FOB Quote For Wheat At Kandla:

Wheat FoB quote in India witnessed steady to weak tone. The demand for Indian wheat in the international market is very low. Export window remains restricted due to huge disparity. There are no takers at higher level.

Prices of wheat may stay steady to slightly weak at current level because south Indian millers are still importing wheat even after duty has been imposed. Furthermore government has no intention to increase import duty to cease imports and arrival pressure has been increasing from central and north India. Abundant availability of wheat in international market at lower prices compared to export prices of India has also reduced demand of Indian wheat in international market.

Wheat Export:

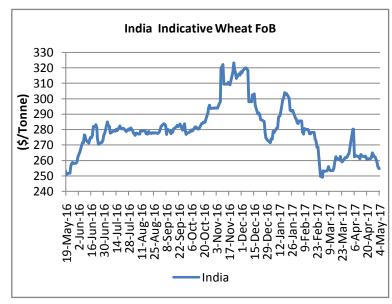

Wheat export volume has been negligible during last few weeks and there is no hope for any major recovery in coming weeks as disparity continues to discourage exporters.

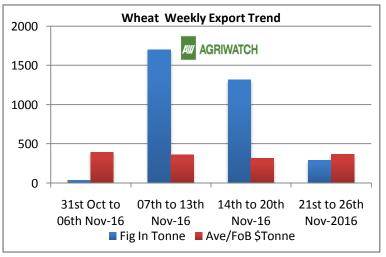

India exported 294.62 tonnes of wheat during week ended 26thNov-2016, down compared to exports in the previous week. Average FoB quote realized last week was \$366.49 per tonne. As prices are ruling lower in global market export opportunity for Indian wheat exporters seems bleak. Major buyers were Sri Lanka, UAE, Somalia and USA.

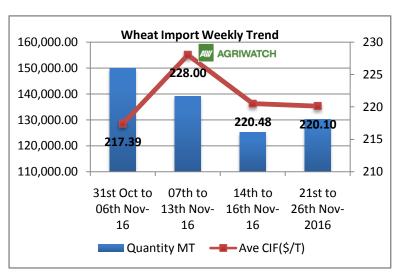

Wheat Import:

According to latest update, a total quantity of around 130066 tonnes of wheat has been imported from Australia, Ukraine and France after revision of import duty from 25% to 10%. Of the total quantity imported 94665 tonnes have been imported from Ukraine and rest is from Australia and France.

As import duty, has been slashed, import volume may be around 3MMT in current MY. It would impact demand of south Indian millers from central and north India. Off-take from central pool may decrease.

Domestic Market Weekly Outlook:

Wheat cash market is likely to stay steady to slightly weak in the coming week because of increased arrival pressure from north and central India. Arrivals have started in all major states and crop is in good condition. Progressive procurement in 2017-18 is higher compared to 2016-17 marketing season. Procurement has reached around 78.18% of target (33 MMT). Government may not increase import duty to 25% and keep it unchanged at 10%. At prevailing duty of 10%, Indian flour millers are still importing wheat.

International Market Update:

As per latest update, Egypt has procured around 8.03 lakh tonnes of wheat since the beginning of its harvesting season from mid-April. This is down by around 0.7 lakh tonnes compared to previous year for the same period. Egypt's supply minister expects to procure around 3.8 million tonnes from local farmers until July.

As per latest update, turkey has removed tariff of 130 percent on Russian grain following the meeting between Russian President Vladimir Putin and his Turkish counterpart Recep Tayyip Erdogan in Sochi. Turkey introduced tariff on Russian grains after Moscow banned Turkish tomatoes. Turkey is the second largest export destination for Russia after Egypt.

Algeria's state grain agency OAIC has bought 250000 tonnes of durum wheat in a tender closed on Wednesday for shipment in June at around \$250 per tonne cost and freight. The purchase is likely to be done from Canada although the origin is optional.

The cost of shipping grains has fallen by around \$3 to \$5 per tonne to \$12 per tonne due to increased capacity. Ukraine harvested around 66 MMT of grains of which it was able to export around 42 MMT. The new export terminals launched in past years can handle more than 6 MMT and more terminals will be launched in coming years which will handle additional 15 MMT. The cost of shipping grains five years ago was around \$18-22 MMT.

IGC has increased its projection for wheat to 736 MMT as on 27th Apr-2017 for 2017-18. According to forecast by IGC for 2016-17 global wheat production was around 753 MMT against 736 MMT for 2015-16. The difference is around 17 MMT from previous estimate. Trade projection has been kept at 166 MMT. It is 5MMT lower compared to forecast for last year and same compared to 2015-16.

Export prices for Russian milling wheat decreased by \$1 per tonne on weekly basis. Russian wheat with a protein content of 12.5% and 11.5% for April- May delivery settled at \$186-188/tonne FoB and \$181-183/tonne FoB respectively. Milling wheat prices kept on falling in Russia due to strengthening of Rouble and sufficient market supply. Furthermore, millers have enough stocks to keep prices down.

As per latest update, Tunisia has bought around 75000 tonnes of soft milling wheat in three consignments of 25000 tonnes each. The first consignment was bought at \$173.85/T C&F, second at \$186.73/T C&F and third at \$189.58/T C&F. The sellers were Europe markets, Bunge and Nidera. The said quantity is to be delivered between June 25 and August 5.

CBOT wheat witnessed downtrend from April 13th 2017 until April 24th 2017. Fall in prices was witnessed due to weather conditions. Crop condition was improved due to rains in winter wheat growing regions. In the beginning of the week around 54% of the crop was in good or excellent conditions. As per forecast of meteorological department, weather will become more conducive for crop in coming days.

Australia's 2017 wheat crop is likely to reach 24 MMT compared to 35 MMT in 2016. The production will fall due to lower wheat prices as well as drier and warmer autumn. Furthermore exports are forecasted at 18 MMT down by around 20 percent due to lower production, strengthening Australian dollar and possibility of delays in shipping.

As per latest update, Japan's ministry of agriculture bought 95555 MMT of food quality wheat from United States and Canada. Around 70275 MMT has been bought from United States with protein content of 14 percent to be loaded between May 21-June 20 and 25280 MMT of western red spring wheat has been bought from Canada with minimum protein content of 13.5 percent to be loaded between June 21- July 20.

IGC Wheat Balance Sheet:

IGC Forecast(Fig-In MMT)	2014-15	2015/16	2016/2017 (Forecast)	2017-18 (Proj)		
		Estimated		30.03.2017	27.04.2017	
Production	730	736	753	735	736	
Trade	153	166	171	166	166	
Consumptions	714	719	737	740	738	
Carryover stocks	206	224	240	234	239	
Y-O-Y change	16	18	17	-	-1	
Major Export	65	68	80	68	73	

- IGC has increased its projection for wheat to 736 MMT as on 27th Apr-2017 for 2017-18. According to forecast by IGC for 2016-17 global wheat production was around 753 MMT against 736 MMT for 2015-16. The difference is around 17 MMT from previous estimate. Higher projection for wheat may pressurize global wheat market at current level and any major recovery from current level is unlikely.
- Trade projection has been kept at 166 MMT. It is 5MMT lower compared to forecast for last year and same compared to 2015-16.
- Consumption has been increased by 1 MMT from 737 MMT to 738 MMT for 2017-18. The projection is higher by 19MMT compared to 2015-16.
- Carryout has been revised down by 1 MMT compared to 240 MMT for 2016-17. It is still higher by around 15 MMT compared to 2015-16

International FOB Weekly Price

Wheat quotes are expected to trade

International Weekly Outlook:

Global wheat market is expected to trade from steady to slightly weak as ample supplies are available in the market. Ukraine has sown around 93% (1.65 lakh hectares) of their target area for spring wheat. Australia is likely to produce 24 MMT in 2017 compared to 35MMT in 2016. The fall in production is mainly due to lower are compared to last year. US crop plantings are likely to fall in 2017 to 18.7 million hectares lowest since 1919. Overall crop condition in northern hemisphere is good as crop exits dormancy period. Argentina is expecting to harvest around 17.5 MMT in 2017-18 compared to 16.3 MMT in 2016-17. Russia has harvested recorded crop of 73.3 MMT in 2016 up by 18.6 percent compared to 2015. Forecast for EU wheat harvest has been revised down due to severe cold in eastern EU. However the reduced forecast of 143.5 MMT is still higher compared to last year. Furthermore, Canada harvested around 31.7 MMT as higher yields compensated for a 7% drop in harvested area. Therefore, Steady to slightly weak market is expected in short to medium term.
