Wheat Domestic Market Fundamentals**[\(Back to Table of Contents\)](#)**

All India weekly average prices increased by 3.38 percent to Rs. 2226.58 per quintal during the week ended 15th November 2019. Wheat average price were ruling at Rs 2153.72 per quintal during 01-08 November 2019. As compared to prices in the week 09-15 November 2018, the prices are firm by 5.41 percent. Prices are expected to remain steady to firm in coming days due to no import parity and likely increase in demand in domestic market.

As per market sources, wheat stock in central pool as on 1st November'19 stood at 373.77 lakh tonnes down by 4.93% compared to last month. This quantity is higher by around 12.80% compared to last year for the same month. Government has already applied import duty on wheat to curb imports and provide support to domestic prices. Therefore, government has abundant supplies this year to tackle any unexpected rise in wheat prices by selling more quantity in open market.

As per latest update, area sown until 15th November-19 is 32.98 lakh hectares compared to 42.40 lakh hectares in the previous Rabi season. The normal area is 305.58 lakh hectares. Acreage in Punjab is lagging behind by 46.80 percent due to curb on stubble burning by the government which led to delay in field preparation.

As per trade sources, after increase in import duty to 40 percent imports have decreased substantially. India has imported no wheat in the month of October-19. Imports are expected to be low this year due to good domestic availability and high import duty. India has imported 588.41 tonnes of Australian wheat during the month of September'19.

India mainly imports from Australia and Russia. Millers prefer Australian wheat over Russian/Ukrainian wheat due to better quality. As of now, Russian wheat with 12.5 percent protein content and Australian premium wheat (APW) is being quoted at \$365.40 (Rs 26228.41) per tonne and \$441.84 (Rs 31715.28) per tonne respectively, after including freight and import duty @40%. Local expenses will further add to cost. Whereas wheat mill quality price in Chennai is ruling around Rs 23500-24000 per tonne. Therefore, as of now, there is no parity for wheat imports.

Indian FoB quote is hovering around \$319.14 per tonne. Against it Russia, Ukraine, France, US and Australia are offering wheat at \$203.40, \$203.90, Euro 177.75, \$236.38 and \$211.85 per tonne respectively. There is little hope for recovery at export front this year. However, India is expected to import around 1-5 thousand tonnes in MY 2018-19.

Previous Updates

As per trade sources, India has imported 588.41 tonnes of Australian wheat during the month of September'19. The wheat has been imported in two lots. The first lot is for 484.74 MT at \$507.50 per tonne and the second lot is for 103.67 MT at \$406.49 per tonne. Both the prices are inclusive of import duty @ 40%. It can be seen that there is no import parity as mill quality and lokwan wheat in south India are being offered around Rs 2400 per quintal and Rs 2600 per quintal respectively. Therefore, the imported wheat is solely for the purpose of mixing to improve the overall quality of wheat.

As per trade source, India has exported around 10.64 thousand tonnes in the month of September-2019. The quantity in September-2019 was exported at an average FOB of \$ 373.12 per tonne. Exports are likely to be at lower side as other countries are able to provide quality wheat at competitive prices.

Wheat WPI has increased from 156.5 in August -2019 to 158.3 in September-2019. Monthly wheat inflation has increased by 1.15 percent in September-2019 compared to previous month.

Outlook & Recommendation: Wheat cash market is expected to trade steady to firm in the coming week.

Trade Call: Stakeholders should trade in December contract taking care of lower and upper price tag of Rs. 2080 & 2260 respectively.

Wheat Weekly Export

Wheat Weekly Average Price Chart
[\(Back to Table of Contents\)](#)

Average mill delivery prices of Wheat traded firm in Delhi, Indore, Kota and Ahmedabad during 08th -14th November 2019.

Prices witnessed firm sentiments in past week. Market is likely to trade steady to firm in upcoming weeks due to good domestic demand and lean season. Government has increased MSP of wheat, which will motivate farmers to sow more wheat and under normal conditions another good crop can be expected. Sales through OMSS has also increased in past weeks. Government has targeted a sale of 10 MMT in MY 2019-20 through OMSS. Sales through OMSS in MY 2018-19 was around 8.2 MMT.

FOB Quote for Wheat at Kandla

[\(Back to Table of Contents\)](#)

Wheat FoB quote in India witnessed steady tone in the past week. The demand for Indian wheat in the international market is low. Export window remains restricted due to disparity.

Wheat FoB quote for Kandla is likely to witness steady to weak tone in the coming week and is likely to hover in the range of \$320-325 per tonne. Furthermore, other countries such as Russia, Ukraine and Australia are offering wheat at lower prices compared to export prices of India has also reduced demand for Indian wheat in international market.

International Market Update:**([Back to Table of Contents](#))**

South Korea's largest animal feed maker has bought, NOFI, has bought around 60000 tonnes of feed wheat at \$228.70 C&F. The quantity is expected to arrive around 10th March-2020. The seller is expected to be trading house Agrocorp.

As per USDA, Russia's wheat production is expected to be 74 MMT in 2019-20. The projection is higher by 1.5 MMT compared to previous months. Russia exported 35.2 MMT of wheat during 2018-19. Exports are expected to reach 36 MMT in 2019-20.

Argentina wheat harvest for 2019-20 is expected to be 18.8 MMT compared to 19.8 MMT in previous forecast. Unfavorable weather conditions such as alternating temperatures with frequent frost has negatively impacted the crop. Argentina wheat is expected to be more competitive in global market. However, if current conditions continue the scenario may change.

As per latest update, Phillipines has bought 165000 tonnes of feed wheat through tender. The said quantity will be delivered between December'19-February'20. The price range for feed wheat was \$253-255 per tonne C&F. The seller was trading house CBH and the wheat is likely to be sourced from Australia.

Taiwan flour mill association has bought 88900 tonnes of wheat of U.S. origin in a tender. The wheat was bought in two consignments. The first consignment for shipment between Dec. 5 and Dec. 19 involved 20,700 tonnes of U.S. northern spring wheat of 14.5% protein content bought at \$274.84 a tonne FOB U.S. Pacific Northwest coast. The first consignment also included 14,200 tonnes of hard red winter wheat of 12.5% protein content bought at \$238.22 a tonne FOB and 5,100 tonnes of soft white wheat with 9% protein bought at \$239.70 a tonne FOB. The first consignment was all sold by trading house CHS. The second consignment for shipment between Dec. 21 and Jan. 4 involved 25,700 tonnes of U.S. northern spring wheat of 14.5% protein content bought at \$280.95 a tonne FOB U.S. Pacific Northwest coast from trading house ADM. The second consignment included 17,750 tonnes of hard red winter wheat of 12.5% protein content bought at \$242.58 a tonne FOB purchased from the United Grain Corporation. It also included 5,450 tonnes of soft white wheat of 9% protein purchased at \$233.81 a tonne FOB which was also sold by ADM.

The Saudi Arabia Grain Organization has purchased 605000 tonnes wheat through tender. The wheat was bought at an average price of C&F \$242.51 per tonne. The said quantity will arrive at three different ports. Around 370000 tonnes will arrive at Jeddah port, 180000 tonnes at Dammam and the remaining 55000 tonnes at Jizan port. The wheat is expected to arrive in Saudi Arabia during February-March 2020. The seller has the option of selecting origin.

As per the National Australia Bank, wheat output is likely to be around 15.5 MMT well below the market expectation of 19.0 MMT due to third consecutive year of drought. "It is mainly due to heat, dry weather and frost," said Phin Ziebell, agribusiness economist at NAB.

South Korea's largest animal feed maker has bought, NOFI, has bought around 60000 tonnes of feed wheat at \$225.87 C&F. The quantity is expected to arrive around 20th Jan-2020. The seller is expected to be trading house glencore.

Russia's Deloports, which owns 75% of KSK grain terminal in Novorossiysk, has started talks with potential buyers after COFCO withdrew from talks. KSK moves around 4.5 MMT of grain annually. More investment will help KSK in expanding and reaching its goal of boosting its grain export to 6 MMT by 2021.

IGC Wheat Balance Sheet:
[\(Back to Table of Contents\)](#)

IGC Forecast(Fig-In MMT)	2016-17	2017-18	2018-19 (Estimate)	2019-20 (Forecast)	
				26.09.2019	24.10.2019

(\$ per tonne)

Wheat CBOT closed at \$5.02 per bushel. U.S. wheat export sales during the week ended 07th November was 239000 tonnes compared to 360000 tonnes last week. Sales were within the trade expectation of 200000-500000 MT. USDA expects sales for 2019-20 to be around 26.50 MMT, higher by 4% than 2018-19. As on 12th November, U.S. spring wheat harvest is 100% complete. Planting of U.S. winter wheat is at 92% compared to 88% last year. CBOT wheat prices closed weak due to technical selling, uncertainty about a trade deal with China and lower Black Sea prices offered in a recent GASC tender.

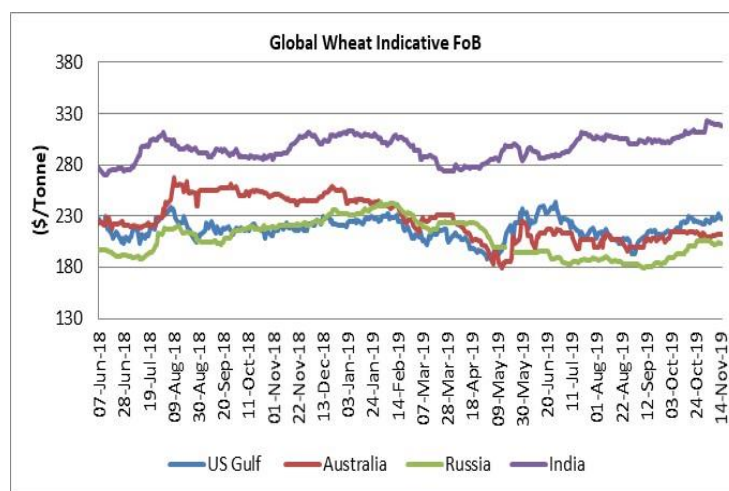

International FOB Weekly Price Movement

Indian FoB quote is based on local price. There is no export in bulk currently. Indian FoB quote is hovering between \$318.10-319.71 per tonne.

US and Russian quotes are hovering in the range of \$228.38 and \$203.40 per tonne respectively. Wheat prices in international markets remained firm in last week.

Wheat is expected to trade steady to weak and hover in the range of \$195 to \$240 per tonne in coming week.

International Weekly Outlook:

Global wheat market is expected to trade steady to weak due to ample availability in global market. EU is likely to produce around 152.3 MMT in 2019-20 compared to 137.8 MMT in 2018-19. Russia and Ukraine are likely to harvest 73.7 MMT and 29.00 MMT of wheat in 2019-20 respectively. Production in US is likely to be around 53.90 MMT compared to last year's 51.30 MMT. Australia is likely to produce 19.10 MMT in 2019-20 compared to 17.30 MMT in 2017-18. Argentina is expecting to harvest around 20.4 MMT in 2019-20 compared to 19.5 MMT in 2018-19. Furthermore, Canada is likely to harvest around 32.60 MMT in 2019-20 compared to 32.20 MMT in 2018-19.
