Wheat Domestic Market Fundamentals

(Back to Table of Contents)

All India's weekly average prices decreased by 1.38 percent to Rs. 1923.72 per quintal during the week ended 23rd Feb 2021. Wheat average prices were ruling at Rs 2227.72 per quintal during 16th–22nd Feb 2020. Due to upcoming demands from Multinational companies, Wedding season It is unlikely that any slowdown in the wheat market and prices will increase for a longer period.

As per the latest update, wheat sowing is almost end. The area under wheat has increased marginally by 2.85% to 346.36 lakh hectares so far in the ongoing 2020-21 Rabi season from 336.43 lakh hectares year-ago same period. Rabi sowing progress's overall trend is excellent, with increased area coverage recorded due to favourable weather. Thus, 9.93 lakh ha more area has been covered compared to last year.

Rains and hailstorms in Jabalpur, Sagar, Bhopal, Shahdol, Hoshangabad, and Indore region in MP and rains in Maharashtra, Gujarat, and West Bengal may affect the quality of standing crops ready to be harvested. Fears have increased as the weather may be wet next three days. The increase in the moisture in the soaked crops would lead to the rejection of the crops and wheat during the government's procurement at MSP. At this moment, the rains will affect the growth of the plant and affect the color of the crop.

Once again, Madhya Pradesh has obtained permission to procure 135 lakh tonnes of wheat, leaving behind Punjab in wheat procurement. The central government has allowed Madhya Pradesh to purchase 135 lakh metric tonnes of wheat at the support price for 2021. The state government had proposed to purchase more than 140 lakh metric tons with the center. At the same time, Punjab has got approval to buy 115 lakh tonnes, Haryana to buy 99 lakh tonnes, and Uttar Pradesh 55 lakh tonnes of wheat.

According to traders, the arrival of new wheat has started in Kota mandi Rajasthan. Arrival is low for now but likely to increase after the 15th of march. High temperature is expected to impact the yield by 10%.

As per trade sources, India has exported around 4 lakh tonnes Wheat in the month of Janury-2021 at an average FOB of $263 per tonnes, higher this year and the major destinations were Bangladesh, Sri Lanka, Qatar and Nepal. Exports are likely to be at higher side as other countries are providing wheat at higher prices. High export will be going to support the domestic market in near term

According to the Union Secretary, Department of Food & Public Distribution, A total quantity of 427.363 lakh tonnes wheat has been estimated for procurement during the forthcoming RMS 2021-22 which is 9.56 per cent more than the 389.93 lakh tonnes procured during RMS 2020-21. Wheat is a major rabi (winter-sown) crop. Harvesting starts from end of this month but picks up pace from April.

Outlook & Recommendation: Wheat cash market is expected to trade steady to slight firm in the coming week.

Trade Call: Stakeholders should trade in January contract taking care of lower and upper price tag of Rs. 1807 respectively.

Weather Outlook: Dense to very dense fog had occurred at most places over Haryana, Chandigarh & Delhi and Punjab on one day each; at many places over Punjab on five days and over Haryana, Chandigarh & Delhi on two days; at a few places over Haryana, Chandigarh & Delhi on two days and over Punjab, East & West Uttar Pradesh on one day each; at isolated places over West Rajasthan on four days, over Haryana, Chandigarh & Delhi and East Uttar Pradesh on two days each and over West Uttar Pradesh and Odisha on one day each during the week.

Wheat Weekly Average Price Chart

(Back to Table of Contents)

Wheat's average mill delivery prices remained low in all states except kota, in the week ending during 02nd – 08th Mar 2021.

Markets had shown weak movement in prices last week due to increased area in wheat and are likely to trade slightly firm in upcoming weeks. Due to demand of new wheat Kota prices are firm. The weather conditions in northern India are likely to have a pronounced influence on the wheat prices. In case there is significant damage to crop from untoward weather conditions, the prices may rise from current level.

India	Fob	249.45	248.09	253.65	250.81	-0.54

International Weekly Outlook:

Wheat prices rose in most major exporting countries since last month's WASDE due to higher global consumption and lower ending stocks, coupled with the continued strengthening of corn and soybean prices. Russia witnessed the most significant climb based on policy announcements affecting grain exports. Canada and U.S. remain the most expensive origins, partly due to lower forecast ending stocks and strong exports.

As on 29-01-2021

International Market Update: **(*Back to Table of Contents*)**

This week's commercial sales of 219,000 metric tons (MT) for delivery in 2020/21 were up 31% from last week's 168,000 MT and in line with trade expectations of 100,000 MT to 500,000 MT. Year-to-date sales of 23.8 million metric tons (MMT) are 3% ahead of last year's pace. USDA forecasts total U.S. wheat exports will reach 26.8 MMT in 2020/21, 2% ahead of last year, if realized.

On March 5, the United Nations (UN) Food and Agriculture Organization (FAO) predicted global wheat production in 2021 would reach a record 780 MMT on a return to trendline production in the European Union (EU).

Russia SovEcon, a Russian agriculture consultancy, reduced its 2021 Russian wheat production forecast from 77.7 MMT in January to 76.2 MMT in February due to unfavorable dryness. "Russia could produce a substantially lower wheat crop in 2021. The main issue is that plants entered the current winter in the worst shape in a decade after an abnormally dry autumn. January was generally favorable for the new winter wheat crop but February weather is not," SovEcon said on Feb. 18.

Canada's Ministry of Agriculture predicts the country's wheat production will drop 4% in 2021/22 on lower expected yield and reduced planted area. Total Canadian wheat exports are forecast to fall 5% from 2020/21 to 20.0 MMT.

China USDA now forecasts domestic Chinese wheat consumption will reach a record 140 MMT in 2020/21, up 5.0 MMT from the January estimate and 15% higher than the 5-year average on increased feed usage as wheat competes with domestic corn as a cheaper feed staple as Chinese producers work to rebuild hog herds. Chinese wheat imports are expected to reach 10.0 MMT this year, up 86% from 2019/20 and more than double the 5-year average.

Ukraine Taras Vysotskiy, Ukraine's deputy economy minister in charge of agriculture, expects record wheat production in 2021 on favorable weather forecasts and mild winter conditions. Ukraine is expected to export up to 22.0 MMT of wheat in 2021, up 26% from last year, if realized.

Australia Argentine wheat harvest was pegged at 53.5pc complete late last week by Bolsa, the Argentine Agricultural Exchange, reporting slightly better yields in recently cut areas but still predicting an overall crop under 17Mt in their estimate.

France According to French farm office FranceAgriMer, winter wheat conditions in France improved to 88% good to excellent by Feb. 28, up one point on the week and significantly higher than last year's 64% rating, despite warm, dry conditions.

Argentina According to AgriCensus, Argentina's monthly grain exports in January 2021 were up 33% from the same period in 2020 after labor strikes were lifted and global prices surged. A total of $2.14 billion of farm products were exported in January, up 27% from December 2020.

Europe European Commission (EC) data confirmed the European Union (EU) has now exported 16.4 MMT of soft (non-durum) wheat outside the bloc so far in 2020/21, down 16% on the year due to lower production. USDA forecasts the EU will export 27.0 MMT of wheat in 2020/21, down 30% on the year and 8% less than the 5-year average.

The U.S. Dollar Index increased from last week's 90.88 to end at 91.94.

IGC Wheat Balance Sheet: ***(Back to Table of Contents)***

IGC Forecast (Fig-In MMT)	2017-18	2018-19	2019-20 est.	2020-21 (Forecast)	
				26.11.2020	14.01.2021

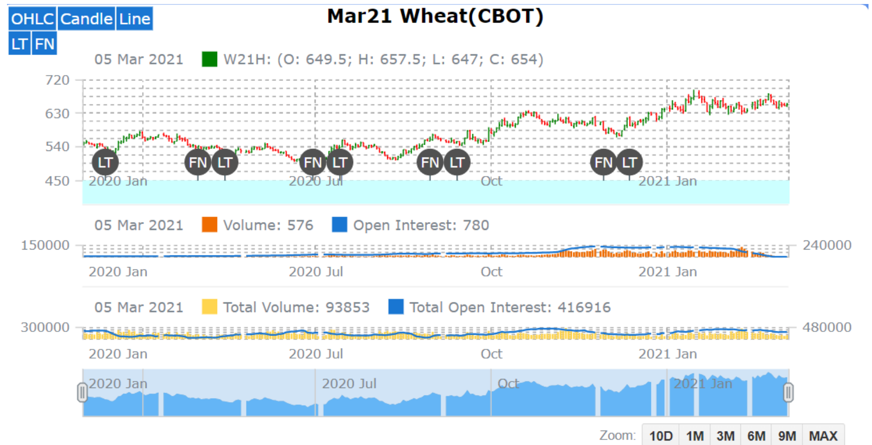
Wheat Weekly Research Report
08th Mar-2021

CBOT Mar-21

(Back to Table of Contents)

1st Support: 643.50
2nd Support: 636.25
1st Resistance: 663.50
2nd Resistance: 676.25
($ per tonne)



The Mar'21 contract closed lower by the end of the week and remained steady to weak during the week. Candlesticks pattern denotes a steady trend in the chart. Increase in price and decrease in open interest compared to last week, interprets short covering in market. We expect wheat prices to remain steady to firm in the coming week.

International FOB Weekly Price Movement

Indian FoB quote is based on local prices. Indian FoB quote is being quoted at $249.45 per tonne. US and Russian quotes are hovering in the range of $289 and $287 per tonne.

There is a lot of demand for wheat in the international market, and prices are up, due to which the Indian wheat demand will also increase.

The demand for Indian wheat will increase due to Russia's imposition of export duty. Exports will increase on an average compared to last year. Export to the surrounding countries will be good, but it does not seem to be exported in all the countries.
