“ ILF AT A GLANCE ”

Year of establishment	2015
Legal Status (Darpan Portal Unique Id)	Sec. 8 Company Regd. No. U74140DL2015NPL276109 DL/2016/0102915
Recognised By	NSTEDB (DST, GoI) (received funding support in September 2016)
Member/Collaboration	CFTRI IARI ISBA NEXUS Lead Angels Shobhit University Mewar University Chatur Idea Amazon Web Services Spinta Accelerator Step-Up 360-WIFE AGRIBUSINESS BOOSTER (ICCO Corporation) Upaya Social Ventures SINE-IIT Bombay Vilgro Foundation International Collaboration: TechTown, Detroit SkyDeck, UC Berkley Shenzhen Open Innovation Lab (SZOIL), China, CURAD, Uganda Global Israel Initiative, Israel
Companies Incubated	20
Incubatees in Pipeline	10
Number of People trained for Entrepreneurship	Approx. 2000 (Including ACABC Agripreneurs)
Employment generated	500+ through incubated companies and 10,000+ through ACABC Enterprises
IPR generated	2 (Provisional patent filed), 2 trademarks, 2 are in pipeline for patent filing

“ AIM OF ILF ”

100 quality incubates in next 5 years, majority of them graduating to full fledged businesses.

“ OBJECTIVES ”

- To support entrepreneurs in up-scaling, mentoring & guidance, linkages to technologies and access to networking.
- Identify potential Entrepreneurs and nurture and support them to develop independent self sustaining business.
- To catalyze and promote development of S&T based enterprises and promote employment opportunities.
- To provide a platform for speedy commercialization of the research and technologies developed in the institutes.

“ SERVICES ”

Infrastructure Support

Incubation Space,
Access to High-
quality testing &
experimentation Labs

Networking Support

Market Linkage,
Linkage to Govt. &
Pvt. institutions &
Shadow advisory
board members

Financial Support

Linkages with VC's
& Angel Investors

Technical Support

R& D support,
Prototype
Development,
Assessment of
Techno-commercial
Viability

Legal & IPR Support

Company formation,
Patent Filing &
Trademark
Registration etc.

“ INCUBATION MODEL ”

The background of the slide is a light blue grid of various business and technology icons. These icons include a magnifying glass, a smartphone, a document, a puzzle piece, a target, a pie chart, an envelope, a speech bubble, a gear, a checkmark, a thumbs up, a lightbulb, a clock, a bar chart, a tag, and a pie chart. The icons are arranged in a repeating pattern across the entire slide.

“Ventures @ILF”

Founders: Milan Sharma & Nishant Sharma
Website: <http://www.intellolabs.com/>

What it offers?

Artificial Intelligence based Commodity Testing App through Image Recognition.

Funds Raised: 2.5 Cr in First Round Funding

Social Impact: Reducing efforts & providing real-time commodity testing to processors, exporters, traders and retailers.

Founders: Anurag Agarwal & Akash Agarwal
Website: <http://www.newleafdynamic.com/>

What it offers?

Eco-friendly off-Grid chillers powered by bio-mass & agro-waste.

Funds Raised: 1.5 Cr in First Round Funding

Social Impact: Reducing wastage of perishable agro-commodities by offering low maintenance cold storage systems that runs on bio-mass.

Founder: Balaji K.
Website: <http://www.inceve.com/>

What it offers?

Indigenous Scanning Sonar products based on IoT for Fishing & Navigation, Harbor Defense, Beach Facilities and Defense Applications.

Social Impact: Assisting Fishermen in Fisheries management and also providing Navigation line of SONAR for Navigation purposes.

INNOSAPIEN AGRO
TECHNOLOGIES PVT. LTD.

Founder: Sarang Nerkar
Website:

What it offers?

Vision for early detection of pests, diseases and deficiency; to create disease free agriculture with the help of advanced technologies such as wearable Computing Augmented reality and plant phonemics.

Social Impact: Helping farmers to avoid pest infestation of their crops and improve their productivity.

Founder: Ravi Sharma & Deepak Verma
Website: <https://www.krishilok.com/>

What it offers?

Creating network of rural entrepreneurs enabled with credit to provide value addition services at source to farmers

Social Impact: Delivering need based agriculture related services to farmers at source.

Founder: Ashwin Mahawadi
Website: <https://www.krishiyog.in/>

What it offers?

Building a platform that connects all the major players in the agriculture ecosystem to provide end-to-end visibility as well as value added services to FPOs and farmers.

Social Impact: Assisting small & marginal farmers at all touch-points to increase their profitability & make them sustainable through different supports.

Founder: Bhushan Jambhekar
Website: <http://vasumitra.in/>

What it offers?

Developed a unique concept of Farming based on Samved Sanjeevan System which minimizes chemical dependence & promotes sustainable farming system.

Social Impact: Promoting sustainable agriculture products by developing agri-inputs on Samved Sanjeevan system of farming.

Founder: Bhaskar Natrajan
Website: <http://www.agriwatch.com/>

What it offers?

Delivering Information to various stakeholders of Agribusiness sector about Agricultural Inputs etc. by providing latest and accurate information. Providing valuable analysis to the trade participants.

Social Impact: Filling out the information and communication gap that exists in various sub-sectors of the Agricultural Economy in general and Agricultural Commodities trade in particular.

 <p>Founders: Atul Chauhan & Siddharth Singh Website: https://www.daily2home.com</p> <p>What it offers? End to end Fresh Fruits and Vegetables Supply Chain company with a vision to “Create wealth and opportunity to the farmers of India”, operating in tier II cities.</p> <p>Social Impact: Eliminating layers of intermediaries and supplying household agro-consumables to consumers by providing better return to farmers.</p>	 <p>Founders: Rashi Verma & Abhishek Sinha Website: http://www.agsmartic.com/</p> <p>What it offers? Croplytics, the crop analytics system is suite of products that include smart irrigation systems, soil sensors, android apps and agriculture business intelligence (BI) system.</p> <p>Social Impact: Right quantity of water and fertilizer is supplied to the crop in timely manner is one the key area where their system helps farmers .</p>
 <p>Founder: Vikas Goyal Website: http://agroman.in/contactus/</p> <p>What it offers? Online and off-line farmer-to-farmer equipment rental market place.</p> <p>Social Impact: Simplifying farmers lives by becoming one stop destination for all the information, products and services related to agriculture.</p>	 <p>Founders: Prasoon Gupta Website: https://www.sattviko.com/</p> <p>What it offers? Based on the concept of Satvik, they manufactures light, nutritious and easy-to-digest wholesome meal.</p> <p>Funds Raised: \$ 320K in First Round Funding</p> <p>Social Impact: Promoting Satvik food that is "pure, essential, natural, vital, energy-containing, clean & conscious."</p>

Founder: Pradeep Dwivedi
Website: <http://organicpackers.com/>

What it offers?

Involved in manufacturing, processing, exporting/supplying high-quality organic food products both domestically & internationally.

Social Impact: Supplying own inputs and providing extension services on-farm to farmers for growing organic produces.

Founder: Iba Blah
Website:

What it offers?

Sikkim based company dealing in Organic Honey and other value added products like Body-wax, Candles etc.

Social Impact: Promoting North-east indigenous agri-products and employing local youths by providing skill based trainings.

Founder: Bharat Chandra
Website: <http://hugaicecream.com/>

What it offers?

Low calorie and high protein alternative to regular ice-cream.

Social Impact: Promoting healthy ice-cream having pre-biotic fiber to deliver health and well-being to everyone – be it growing kids, adults or the elderly.

Founder: Karan Gupta
Website: <http://hugaicecream.com/>

What it offers?

A unique Vacuum Drying Technology to process fruits with no additives & preservatives for all age groups.

Social Impact: They seek to deliver unique products that have tasted, natural ingredients, health benefits.

Founder: Kamal Khurana
Website:

What it offers?

An aggregating platform that is Linking farmers producer organization directly to retailers / traders.

Social Impact: Their linkages brings better returns on farmer's produces by eliminating multiple intermediaries of commodities chain.

SPR IT SOLUTIONS
PVT. LTD.

Founder: Dr. Gopal Purohit
Website:

What it offers?

Catering dairy farmers with modern Animal fertility techniques(AI, ART etc.) in collaboration with IOT sensors.

Social Impact: Their technologies are specifically for rural dairy farmers to enable them with modern techniques of cattle fertilization.

Founder: Gaurav Kumar Srivastava
Website: <http://www.indraprasth.in/>

What it offers?

Skill based training program.

Social Impact: Collaborating with Govt. & Academic Institutions to promote skilled youth in society through skill trainings.

Founder: NVV Kiran Vuppala & Ruchi Singh
Website: <https://www.cerelianutri.com/>

What it offers?

Cerederm (enabled biomolecule loaded moisturizing lotion for transdermal delivery) offers an alternative for people with difficulty in swallowing and absorbing oral supplements.

Social Impact: Using OTC product they are eliminating Iron & nutritional deficiencies in rural children & women.

AgriPulse - Accelerate North-East launched

Source: The Sangai Express

Imphal, August 26 (ANI) Central Agricultural University, Imphal under the Indigram Labs Foundation (ILF), has launched Imphal Roadshow Agenda AgriPulse 2018 at its campus in Imroshemba today.

Speaking at the event, Professor Dr. Prasad said that launching the AgriPulse Accelerate North-East (Pulse) - 2018 is a great challenge.

The Prime Minister of India, Narendra Modi, has recognized and appreciated that the eastern region (Northeast) is a strategic area for the growth of the state - important.

The PM has said that North-East India has vast scope for organic farming.

During the event, the farmers' income generation by 2022 is a great challenge, he said.

The focus of the programme is to encourage the youths of the state in becoming agriculturists, he added.

AgriPulse - Accelerate North-East about an entrepreneurship and marketing platform for different stakeholders.

It aims at providing technical mentorship and customized capacity building programmes.

It would also facilitate North-East entrepreneurs in exploring business opportunities in open India market, said experts at the event.

AgriPulse -2018 aims at recognizing potential game-changing early stage entrepreneurs from North-East and creating a supportive ecosystem to help them scale up their business.

The Assam Tribune

80 YEARS OF SERVICE TO THE NATION

PUBLISHED BILINGUALLY FROM GUWAHATI & DIBRUGARH

BN 1212717 TUE 26-10-2017 VOL. 66, NO. 25 GUWAHATI, MONDAY, AUGUST 26, 2018, Page 20 Price Rs.6.00

AgriPulse'18 under way from today

GUWAHATI, Aug 18: Delhi-based Incubator Indigram Labs Foundation, supported by the Department of Science and Technology Govt of India, has announced a six-month accelerator programme AgriPulse'18 to identify and support innovative, sustainable and scalable early-stage agri and food entrepreneurs from the North East, a press release stated here today.

AgriPulse'18 is aimed at recognizing early-stage entrepreneurs from NE, and creating a supportive ecosystem to help them scale up their businesses.

The programme is supported by the Department of Science and Technology, NER, NERAC, Startup Assam, NERDC, Inc42, Triantra and many others. It will be launched tomorrow at NERDC House from 11 am. Roadshows will also be conducted at St. Xavier's Institute of Culture, Bongaichang on August 21; at the College of Fisheries, Lakhimpur, Assam on August 22; at Central Agricultural University, Imphal on August 26, and at Mizoram University, Aizawl, on August 31.

Agri-pulse seminar held at Agartala

Focus to accelerate business in NE

Agartala: Aug 25. The Agartala Road show by Agri-pulse, a seminar to accelerate Northeast was held at College of Fisheries at Lambachata in Agartala on Saturday aimed at recognizing potentially game-changing early-stage entrepreneurs from NE region and creative supportive ecosystem to help them scale up their business.

The Agri pulse seminar was organized by Indigram Labs Foundation (ILF) which is organizing such seminars in different parts of the NE region. On August 30th, the AgriPulse seminar was inaugurated at Guwahati and next seminar was held at Shillong.

Addressing the seminar, Jayanta Debnath, founder and MD of TriantraInfo.com said, this program will provide the identified Start-ups the opportunity of intensive mentoring and training from the pool of experts on various aspects of entrepreneurship including startups, investors, mentors and subject matter experts and help unlock the huge potential of the NE states by unleashing the innovative energy of the emerging entrepreneurs of the organization in this endeavour to create and support agri-entrepreneurs in the State.

Debnath also added that agriculture sector is the primary sector of the State and it contributes 32% of the total GDP of the State, but farmers are still considered to be a producer farmer and not as entrepreneur farmer.

Speaking in the programme, Dr. Mrunmayee Datta, principal of College of Agriculture, Agartala also stressed on entrepreneurship development in agriculture sector.

Dr V V Sadanath, adviser of Indian Society of Agribusiness professionals (ISAP) and former adviser of Planning Commission in Agriculture said that agri sector has huge potentiality for developing entrepreneurship.
